From the Masses:
To the Masses:

Have You ever stopped to think what a vital resource blood is to all of us? Did you know that at the present time there is a critical shortage of blood available in Marion County? Did you also know that if you or any member of your family would need blood it would cost \$50.00 per pint? Did you know that this is Blood Bank Club Week at Marian?

Clare Hall Board is in the process of setting up a Marian College Blood Bank Club. Under this club, any member of the Marian College community, be that administration, faculty, office personnel, maintenance personnel, or student, plus the members of your immediate family, would be covered for one year to receive free blood anywhere in the United States. In order to get this club established we need your help and support in donating blood to meet our necessary quota of 200 pints.

On Monday, January 20, 1975 from 8:30am-4:30pm in front of Marian Hall Auditorium, an information table will be set-up to provide further information about the club. Also, those who wish to donate a pint of blood should sign up at this time.

The Central Indiana Regional Blood Program will bring their mobile unit to campus on Fri, Feb. 7, 1975 from 10:00am - 3:00pm for the initial drawing. It is essential that we have at least 100 donors at this time in order for the mobile unit to come. There is no cost involved, yet we do need your help. Donating a pint of blood is a simple and safe procedure that involves about 45 minutes of your time. This club will not only provide a service to the Marian College community, but will meet a vital need in the Marion County community. We would ask that you strongly consider this and help us by donating a pint of blood on Friday, Feb. 7, 1975.

Thank- you.

Sincerely,

Clare Hall Board

*a special note: Dr. Gatto, Sr. Margoretta, and Mr. Paul Fox are going to donate a pint of blood. If they can do it, you can do it.

Dear Carbon Editors;

As a member of the Marian student body, I feel that I am not overreaching my rights in saying just a few words about the Carbon and the quality of its content. As a student I, along with the rest of the student population fund this publication. But, as in the case of the last issue (concerning the supposed "sneak" at Doyle Hall) when a campus paper insists on publishing an exaggerated, blown-up story (which did cause commotion) instead of getting the facts (and then making the decision as to whether or not the story actually contained newsworthy information), the question of bad journalism comes up.

No, I'm not one of the administration's 'student spies' hired to keep student unrest at a low. But cheap rumors, especially on THIS campus, are a dime a dozen anyway. Isn't there anything else you can do to make your paper interesting without printing trash? Or is the Carbon only an outlet for emotions that its editors can't deal with?

Bob say's "No Jive in '75!"

Well folks 1974 is gone and hopefully so are some of the ridiculous antics which we all know (but don't love). To this new year I can only hope for the best, whatever it may be. I would like, however, to voice an opinion on the loss of a good maintenance man from Doyle Hall. It is a shame some people are so hasty in their decisions and then don't take all the action necessary (could this be favoritism). Please, to those involved you know who you are, open your eyes.

Until next week,  
Bob

P.S. Merry Christmas too!

To MC

On Jan. 15, 1975, people celebrated Dr. Martin Luther King's birthday all over the country. In Indianapolis, the community celebrated at the Convention Center with a special service of singing and speeches. This program was aired over WTLC broadcast station. In the cafe, I requested that the station playing be changed to WTLC so people could share in listening to the program. It was changed a few minutes before the program was due to begin. As soon as the Black National Anthem was played, the station was again changed. This is the upmost insult to me and other blacks here as well as a direct insult to what this day stands for to the whole country. I ask you, MC, how many times do you have to listen to WTLC? Just once I request that a special be aired and I'm shown just what the general attitude toward black pride is by MC. So I say to MC, continue playing your honky tonk music because in the end you will get yours. Not because you change a radio station but because your souls are so full of racist beliefs that you will destroy yourselves.

FRIESEN REPORT

What the hell do you mean the vacation is over. Drop that whip. Yeeesh, these characters claim to be loose but they're worse slave drivers than I am.

Well Knights (Marianites or any other term you may wish to refer to yourselves as), here we are ready to embark upon another semester of fun, frolic, study (and maybe a little learning) in Nap Town. Its been a fun vacation, I had a good time, I hope you did. I missed you as I partied, consumed copius amounts of Chateau Nauf de Pauf, Lowenbrau, Teachers, Jack Black, Gordons,...in short anything with a kick, chopped wood, rode, swam and best of all slept.

All sorts of things are planned for this year. I also need help from you in planning. I am still trying to make a go of the Perc, any ideas you might have would be very much appreciated. You have idea, me listen. Period. Me might not use idea but me give it long and careful consideration.

We'll be trying some specials both during the day and in the evening. Starting Monday

(cont. next page)

we'll have coffee and donuts in the morning. I hope I'll see you tomorrow at the game and afterwards at the freshman class ice creme social in the Perc. For now good night, peace and take care.

Dave

### EDITORIAL

During vacation one of the activities that preoccupied my daily schedule was watching television. I know that doesn't seem like a very exciting way to spend a vacation, but there just isn't much else to do unless you're working somewhere. The only show that really interested and excited me during this particularly boring period was CBS's "60 Minutes" because their guest was G. Gordon Liddy.

Here was the man who conceived the break-in of the Democratic headquarters at Watergate. He was also one of the "plumber's" that were responsible for the break-in of Daniel Ellsberg's psychiatrist's office. He was the only one of the Watergate defendants who had not talked and was given the stiffest sentence by John Sirica. Now here he was on CBS talking to Mike Wallace. Since he is now out of jail on appeal he refused to discuss any matter of Watergate which dealt with his own case. Despite this drawback the interview proved interesting anyway.

When asked how he felt about John Dean he replied, "in all fairness to the man he ranks right up there with Judas Iscariot." Next Wallace asked him why he thought Dean testified against Nixon. To this he replied abruptly "to save his ass." However the most important thing I felt he had to say was his disagreement of Gordon Strauhan's advice to young people to stay away from Washington. He stated that if you are dissatisfied with the government the best way to change things is "to get off your duff and come to Washington, you're not going to change anything by sitting on the curb and bitch."

What Liddy said seems applicable to the situation here at Marian. Very few days go by on this campus that I don't hear someone complain about administrative policies that currently exist. I know that complaining is an easy thing to do, but it accomplishes practically nothing. If you want things changed here the most effective way to do so is through student government. Last year's Student Board elections were almost a farce. In many cases there was only one candidate for an office. Now is the time to start considering whether or not you would be interested in determining what goes on around here. Things won't change at Marian unless students work toward changing them.

Normally I wouldn't agree with Mr. Liddy's ideas, but in this case I take exception. The purpose of student government is to aid and benefit the student, also to make sure that student ideas are represented and taken into consideration when decisions are made. Just remember you're not helping yourself at all if you "just sit on the curb and bitch."

Paul.

## SPORT SHORTS

Before we welcome the new year we must first mention the scores of the last Sunday of good old 1974. Each team had one game before the players hit the books for finals and the results were as follows:

Mean Machine 63 BS&T 48 - - Lower, Becker and Cochran led the Mean Machine with 22, 18 and 14 respectfully as Chuck Hall chipped in 24 big ones for the losers.

Perc 54 White Lightning 38 - - Dan Holzhausen hi 19 to lead the Perc. He was followed by Rechart with 10 and Simmons with 12. But White Lightning had a little surprise. Career highs of 12 points were tallied by Tom Sluss and Bill Platt. Ed Krusa added 10.

All the Marbles 47 Mother Truckers 39 - - In a fairly close game, the Marbles prevailed through power. Big John hit 20 and Baze added 10. The Truckers were lead by the amazing play of Steve Bickley with his 26 points.

Wells Fargo 70 UFO's 39 - - Wells had a balanced attack lead by Frosh Doug Lampkin's 18 points. Schrothy added 11 and Fish chipped in 10.

Apathy 58 Sisters 34 - - A close game which saw the Sisters leading 18- 16 at half. Apathy blew it open midway in the second half. Don Masten had 17 and Jimmy Reinstatler 15 for the winners. Joe Rea's 14 and Dave Record's were tops for the Sisters. Tom Schomer also broke into the scoring column with a career high of two.

Ladies Choice 73 The Hurd 21 - - A lopsided victory which was easily won by the Ladies. Mark Gatto lead the way with 18, Steve Barrett followed with 17 and Scott Vonderhide hit 16 for the victors.

Wazuri 56 Vikings 33 - - The Vikings put up a good fight but fell short. Vic French hit 20 for Wazuri. He had help from B. Washington's 15 and Slick's 10. Jerry Disque hit 15 and Bobinger 10 for the losers.
