--Get the opportunity to work with faculty and staff.

--Like to organize fun activities for students.

Stop and see the activities Director Mr. Henderson and find out how!!!

A RETREAT FOR SINGLES -- "Single: Challenge and Opportunity" is the theme for the singles retreat, Mar. 5-7 at Indian Lake Retreat Center. It is sponsored by the Christian Church and is open to all. Call 923-3674.

Spring is steadily approaching and it's hard to realize that we are almost 3/4 finished with this school year. At this time many students, especially freshmen reminisce how last year at this time they were still prospective students in process of making the decision of where to go to school. This past week I stopped back to reflect upon the question, "Why did I go to Marian College?"

Indiana is fortunate to have many fine colleges so if you are a resident wishing to further your education in the state, you have a wide variety of choices ranging from state schools with a population of 20,000 to vocational technological schools. When I was in high school I scanned a wide variety of colleges prior to choosing my final destination of Marian College.

I really liked I.U. This university was typical of a state university containing the big basketball and football team, and academic classes suitable to almost every individual's needs. However, I did not 'luuuuuuuuuve' I.U. as many students and alumni rave about it. Frankly I felt more like a computerized number rather than a human being and knew that if I went there I would not even be seen much less receive personal attention. My attitudes were similar toward Purdue and Ball State and besides, who would want to go to a college in a boring town like Bloomington, Lafayette, or Muncie?

My attention then turned toward private schools beginning at the top of the state with South Bend which contained the infamous University of Notre Dame. After I realized that you wouldn't be accepted there unless you had a grade point average of 4.5 on a 4.0 scale, had an entire preppy wardrobe, and your father was on the board of trustees, I turned my sights toward smaller private schools and scanned the state for a small liberal arts private college where I could receive a solid education on a personal basis.

Suddenly it dawned on me that the 5th fastest growing city in the nation was only a short distance from my house staring me in the face--this city was Indianapolis. Growing up in a small town did not accustom me to the 'big city' life style but nevertheless was intrigued by it, deciding to investigate the schools in the metropolitan area. I wasn't too impressed with the fraternity/sorority life at Butler, nor did I like the largeness of IUPUI. At last I decided to tour the campus of Marian College.

I was impressed with the beauty of the campus as I drove along the 114 hark-like acres, and immediately noticed how friendly and helpful everyone was. My professors knew me on a first name basis and within weeks I knew almost all of the students. Although there wasn't a huge football stadium, you could get involved in almost all sports and learn the true meaning of sportsmanship. After all, where else but Marian could you personally know all of the members of the basketball and baseball team!?

Student involvement is heavily encouraged and you have opportunities to be involved in student government, campus social activities, or even

- Houdini was the first man to fly an airplane solo in Australia

be a columnist for the CARBON! The intimate atmosphere of the campus allows you to be alone in a private spot while still allows you to be 10 minutes from downtown and 5 minutes from the world's largest sporting event, the Indy 500. In fact, right now I'm on my way shopping, or maybe I'll swim at Allison or even play intramural volleyball. Tonite after dinner I'm sure there will be something exciting to do. If not, my friend's and I will sit around for an evening of popcorn and 'Dallas'--- Campus involvement, personal attention, and lifetime friendships--those are a few reasons of why I went to Marian College, and why I'm glad I did.

The theme of this semester's student retreat is "It's the Day of the Lord" a day to take time for yourself to relax, reflect, renew yourself, and share with others aspects of your Christian life.
