## ELECTION "WEEK"

The freshman class elections being held today could be the climax to one of the most poorly planned election "weeks" ever. The policy concerning campaigns has always allowed one week for vote getting commencing on Monday and climaxing with the balloting on Friday. However this year the nominees were not officially announced until Tuesday afternoon which left only two days of handshaking for those running.

The importance of good leadership in the freshman year cannot be overemphasized. It can result in a strong, hard working group or a weak apathetic bunch. This is the responsibility of the officers. Good officers can be a determining factor in making a good class. This week's short campaign has been unfair to the candidates and to the class. Candidates have had little chance to meet their possible constituents while the class has had little time to judge all the candidates. This could be a regrettable mistake.

At any rate today is election day and the CARBON urges all frosh to use their vote. Vote wisely and select officers that will reflect the potential in your class.

## COOL GOOLS!

Attention witches and wizards! The time is Friday, October 22, in the Mixed Lounge, when the Clare Hall Board will present the "Haunted Hollow Hop". Admissions will be 50¢ stag and 75¢ drag while masks are to be worn by all and costumes are optional. There will be plenty of entertainment at this gala affair so bring your pennies. This promises to be a real orgy with a terrific door prize to be given. The prize will enable the beholder to cut in the lunk line for a week. Don't miss it as all will have a real 'gool' time. Remember girls, HARRY JOHNSON will be there!! See you then.

## WELFARE GOODNESS SAKES!

There was a response of more than 60 volunteers to the Welfare Program at last Tuesday's meeting with the people from the Dept. of Public Welfare. Fourth, 5th and 6th grade welfare children will be visited by Marian students on occasion at their convenience.

If you still wish to participate, you may give your name, location, when you're available, whether you'll work singly or in a team, and if you have access to transportation, to Ginny Mosele, 234A, Clare Hall sometime this week.

The CARBON strongly suggests that those male members of the English Dept. whose foot-holds are found in the Ohio River lowlands should refrain from scandalizing students, by sleeping in R. 207 on Thurs. afternoon.

Right, J.G.?

Dear CARBON,

The freshmen men are glad to see that you advocate freedom of the press and is grateful to be able to take advantage of this freedom.

In issue No. 3 you asked the question, "What would it be like to have freshmen men instead of boys?" We freshmen would like to know what person or persons associated with the CARBON are so mature that they can put themselves in a position to ridicule and deride their fellow students? We do not believe that there is anyone that mature on this earth!

The freshmen men would like to state their belief in the power and value of constructive criticism. We know the CARBON believes in and advocates its use by their policy of welcoming any and all criticisms directed toward it. So do the freshmen. We are far from perfect and are the first to admit it. We would like to point out though, that there is a definite difference between criticism and ridicule. It is quite apparent that certain CARBON personnel are not mature enough to see this difference by their continuous riding of a single group. So we say grow up yourself before you start telling other people to.

Thank you,  
Freshmen Men

It is easier to be critical than to be correct.

NOBODY ASKED ME BUT.....

it certainly is amazing; imagine football on Parent's Day

for those who have been in perpetual complaint, concerning the impossibility of our great brick temple of goddesses by phone, speak to HARRY JOHNSON, who's apparently running the whole show

I understand HARRY may slither away from his hiding place, when Clare Hall will attempt to produce him for their mixer.

white drapes in the men's dorm lounge???

it has been said(CARBON, VOL. 4) that no one is capable of determining maturity, but last year's freshmen were immature, next year's will be and forever.....

is anyone going to beat the Nutty Nine??

our very own "Beaver" has established a new world's record in the Jell-O slurp.

IT HAS HAPPENED!

Pigskin activities last Sunday put the focus on the frosh Nutty Nine as spoilers of the year. The quick-moving fiends of the field upset the McCoys, 20-14 with a touchdown on the last play of the game. Those still-scoreless UmGawas were shut out again, this time by the Carpetbaggers, 19-0. 68's plus tax continued their wane of destruction by obliterating the U.N.C.L.E. gang, 19-0. The Be st turned the trick of the 1969'ers, 18-0.

Sunday's action will feature the clash of the unbeaten, Carpetbaggers and Nutty Nine at 3:00.

Sunday, Oct. 24

Jr. - DiAnne Blazic

Sr. - Kathy Rodgers

The M-Club has finally unveiled its plans for the annual M-Club Dance and as usual your on the spot CARBON has the news first. The big affair will be staged next Friday, Oct. 22 from 9-12 at the I.U. Medical Center, Student Union Building, 1300 W. Michigan.

A semi-formal event, the price for sliding and gliding to sounds of the Headliners. Tickets may be obtained next week from any letter man in front of the auditorium 11:30-12:30, or at the door.

N.B. John Lynch: No single admission tickets will be sold.

RUMOR TUMOR

Rumor is one of the cheapest commodities around, yet it goes on like the high priced spread. Here's a case in point. At last weeks Manuah Mixer a coed took a few drags from of French ciggaret. She became slightly nauseated. A few small minds took it from there. Nausea, as we all know, invariably indicates a reaction to narcotics. The campus police, in rare form from a summer of watching Naked City reruns, knowingly cast about for reefers. Besides, the "pusher" happened to look and carry himself a little differently than most Marian students, which, of course, made him a prime suspect. It was obvious. An out and out case of marijuana.

It matters little that nausea can be caused by the initial taste of chewing tobacco or the first puff of a cigar or even a French ciggaret which happens to be a bit more potent than the U.S. brands. It makes no difference that those who smoke the nasty weed for the first time become high and not only nauseated on that. Christ probably looked and carried Himself a little differently than most Marian students.

Those who take the trouble to look through all that marijuana smoke will find that the gentleman whose reputation was placed in jeopardy possessed a French ciggaret and nothing more. The only other thing that was puffed was a big fat rumor.

DONT'S DESREMEMBER!

Tonight through Sunday at 8:00 P.M. in the auditorium and in the round, "The Public Eye". Much Humor. Tickets still available. Saturday sold out. Come early.

Those who think it permissible to tell white lies soon grow colorblind.
