# Week of the Streak!

## EDITORIAL

Earlier this semester, the Phoenix interviewed the new "FSD". It was stated that the cafeteria would continue to function "pretty much as they are now" (PHOENIX, Jan. 23, '74) making improvements only where necessary. With this comment, the "snow job" began.

In the past, Ron Morgan began a program where students played an important role in the functioning of the cafeteria. This included student cooks, supervisors, bakers and other jobs that put more responsibilities on the students. The success of his efforts was clearly evident. The FSD could leave for two weeks at a time without worry of the collapse of the food service. This was demonstrated last summer when students alone operated the cafe at one of the busiest times of the year. There was no major problems. Suddenly, Mr. Thompson decided that full-time staff worker must be present at all meals, as he would not be in on certain week-ends. The result of this was the shuffling of the regular staff hours without regard to their family obligations. Not only was this an inconvenience to the regular staff, but an insult to the student cooks.

Mr. Thompson had an excuse for his poor service in his initial weeks as FSD; the trucker's strike. One half of the Sexton order was not arriving: a highly questionable statement but beside the point. During this same period, week-end meals also suffered. However, this was supposedly due to the "inexperienced" student cooks. Consequently, at a lunch period the following week-end there were four cooks; two student cooks and two regular staff cooks to "assist" them. This certainly seemed a strong indication of a basic mistrust in the capabilities of student workers.

These are not the only "improvements" instigated by Mr. Thompson. His marvelous concoctions such as meatless lasagna or grilled peanut butter and bacon sandwiches have done much to add to the declining quality of food. If perchance, there is a strong entree, it almost inevitably runs out as the other two entrees are often extraordinarily weak (i.e. pancakes). The once impressive catering service seems to be almost non-existent.

As with most people in a position of authority, Mr. Thompson claims he is open to criticism and suggestions. If this were true, student workers would not be quitting. People would not be going to the district manager with their complaints. People wouldn't quit for no apparent reason. Students wouldn't be wishing they could afford to.

In conclusion, the former FSD was accurate in his letter to the Phoenix. Tom cannot "replace" him. He will "make his own niche", for better or for worse?

FROM THE MASSES:

ODE TO A STREAKER

Listen, my children, and you shall hear  
of the amazing streak of Paul Revere\*.  
He started at the Library on the third floor  
and did not finish until he reached the Doyle  
Hall door.  
He was attired in only his birthday suit,  
a stocking cap, and shoes, to boot.  
An SRO crowd was in attendance  
to see this display of moral decadence.  
With the stocking cap protecting his face  
he started toward the stairs at a speedy pace.  
He hesitated at the top of the stairs.  
Could the price for this action be too much  
to bare?  
The decision was made at last  
and he descended the stairs mighty fast.  
As he hit the second floor, a cry arose.  
The crowd as one came up on their toes.  
His safe escape was only marred  
by the appearance of a famed security guard.  
With a fake to the left and a fake to the right,  
the streaker continued his downward flight.  
At the ground floor another abstacle was seen,  
the one and only, ever-loving Dean.  
She screamed at him with a memorable jewel,  
"If we ever catch you, you'll be kick& out of  
School!"  
We all thought the show was over, until,  
he turned to give us one last trill.  
And now he began the last leg of his trip,  
and returned to Doyle Hall without another  
slip.  
And though this poem may seem uncouth,  
I swear it is the pure and naked truth.

\*The story you have just read is true, the  
names have been changed to protect the guilty.

New Course Requirement for Graduation!!!!

FLA. 1000 Practical Field Work in Florida  
Sunshine.

(credit hours worth one spring break)

A group of Marian students (the Florida BF's)  
will be presenting to Academic Affairs and  
Faculty Council a proposal for a new course  
which they would like instituted into the  
General Education requirements.

Some of the basic concepts of this course  
include 1.) packing a tent with parts missing,  
makes for an interesting nights' sleep, of  
course its always better to have more people  
then the capacity of the tent. 2) shining moonsor  
(It makes for a brighter day) Right \_\_\_\_ ella?  
3) Learning to wash and cook with sulfur water, elected representative can only accomplish so  
(Adds to the flavor of the cherry pies, much without student support and opinion,  
4) Finding a secluded beach (makes for the shy whether it be positive or negative.  
streakers to come out of their shells!!) Hear As a senior, I have nothing to lose or gain  
that Red! 5) Retaliating against toll booth as a result of the upcoming elections. But I  
personnel using such language as \$?!@! 6) Blow do care about what I'm leaving behind and I would  
ing up mufflers and dislocating trunk hoods hate to see all campus clubs, organizations,  
(always adds a challenge to the field study) and dorm governments run by the administration  
7) Watching out for rats (right, Seibal? merely because students don't care enough to  
snakes(right Rita), cock roaches (right, Bozo) elect those capable and willing to do the work.  
raccoons (right, Tung?) and leeches (right, Above all, I think everyone should exercise  
baseball team!?) 8) Learning to cope with the power to vote for only then, have you the  
bronzed tans, sunburn, sun poisoning (right right to criticise. Now is the time to make a  
Nancy?)and the after effects of leperosity. choice and decide what kind of student organi-  
zation you as a student want.

(continued on the next column.)

FROM THE MASSES (CONTINUED)

The Do's and Don'ts which help attain a more  
rounded experience

DO: -stop at every truckstop that looks lived in.  
(and maybe even died in)

-take a private tour of an ocean liner.

(That's one way to find some seamen)

-stop at that big amusement park they have  
down there. (I think it's called Disney -  
World)

-enter the sunshine state at early morning-  
you get a better view of the fog.

DON'T: -fall asleep at the wheel, don't fall  
asleep in the car, don't fall asleep at all  
It makes for a punchier trip, every one  
should try staying up for 50 hrs.(right,  
Pryser?)

-By beer in Fla., you might go into the Poor  
House.

-Put four people in a motel room for ONE.  
(No credit can be given for spending your  
trip in jail.)

The lab fee of this course should not exceed  
that which you can scrape up or borrow.

Course as described is recommended for camp-  
ing, however for the inexperienced, hotels,  
motels and notells are available.

C O M E O N D O W N!!!!

Hafe and Mac

Dear Carbon:

Recently, there has been a rash of criticism  
concerning the ineffectiveness of student leaders  
here at Marian College. I am not one to deny  
the value of criticism but find it hard to accept  
the criticism of those who choose to remain in-  
active while passing judgment on their fellow  
students. Voicing their convictions would be  
more easily accepted if they did not preserve  
their anonymity by submitting unsigned letters  
to student publications. If they feel strong  
enough to write letters, why must they remain  
anonymous?

Looking back at last year's elections, many  
offices and significant positions were either  
unopposed or filled with token candidates.

Why was position simply handed to me as many  
other presently held offices? Experience is  
not the only key to success. It is an advantage  
but it is not a necessity in order to success-  
fully hold a position.

Most clubs and organizations hold meetings  
which are announced in advance and open to all  
interested students. Lack of attendance at these  
meetings by non-elected students, in my opinion,  
shows either disinterested students or students  
satisfied with the present operation  
and activities of these organizations. An  
elected representative can only accomplish so  
much without student support and opinion,  
whether it be positive or negative.

As a senior, I have nothing to lose or gain  
as a result of the upcoming elections. But I  
do care about what I'm leaving behind and I would  
hate to see all campus clubs, organizations,  
and dorm governments run by the administration  
merely because students don't care enough to  
elect those capable and willing to do the work.

Above all, I think everyone should exercise  
the power to vote for only then, have you the  
right to criticise. Now is the time to make a  
choice and decide what kind of student organi-  
zation you as a student want.

## Exorcism

Have you been hearing strange noises lately? Does the bed shake? Are there rats in your attic? Are you possessed? Next week you can have all your questions answered concerning exorcism and the devil.

The Reverend Jerome Palmer O.S.B. will be in the Clare Hall Lounge on Wed., March 27 at 6:00 pm. to speak on exorcism. Everyone is welcome, and encouraged to come, listen, and ask questions. Born in 1904, his studies include graduate work at Fordham University (1931-32), Indiana University (1933-34), and the Catholic University of America (1961-62). He earned his Masters in Religious Education. One of the many positions he has held in the past is Spiritual Director of Pilgrimages to Shrines of Europe and the Holy Land. At present he is editor of the Blue Book, the official publication for the National Clergy Council on Alcoholism. It should prove to be interesting so plan to attend!

Clare Hall Board

Attention Seniors!

Measurements for caps, gowns, and hoods will be held on Wed., March 27 and Thurs., March 28 from 9:00-2:30 pm. in the faculty lounge - Marian Hall. Payment will be due on delivery Tues., May 7 from 11:00-4:00 pm. Rehearsal will also be on Tues. at 2:45 in the M.H. Aud.

Student Teachers will receive forms from Sr. Marilyn either Fri. or early next week which should be completed and returned to Mrs. Waters by Wed. the 27th.

Graduation will remain on Sunday and will be outdoors.

Thanks--  
Moll

(At Marian University, a scene took place in President Gattiones office and we feel it our duty to bring this affair to the attention of the masses. Although the meeting was held in utmost secrecy, it leaked to us through sources we are unable to reveal)

Col: Mr. President, I've just been informed that several of our faculty members have been arrested streaking through Butler.

Pres: Holy Catholicity, call Sister Norman. We can't let this leak to the press.

Col: There is no guarantee these streakers will keep quiet. They're members of the Philosophy Department.

Pres: The Philosophy Department!!!! Well, then what are our alternatives. As I see it, we have three choices.

Col: We could offer them tenure or hush money and then there is the ultimate!

Pres: What is the ultimate?

Col: Excommunication!!!

Pres: First things first. Find somebody to break into the health neurotic behavior building.

Col: Already taken care of, sir. Their only unusual quality that I could find is that they are chess fanatics.

Pres: Isn't Bobby Fischer Jewish? Well, never mind. Where might we possibly raise funds for hush money?

(continued on the next column)

Col: Well, we can either raise the students tuition, or we could pay the new Food Service Director what he is really worth.

Pres: I'm afraid that neither suggestion will work. We have but one choice.

Col: What is that, Sir?

Pres: The public must be made aware that we realize streaking is no laughing matter, that it is utterly disgusting, revolting and ugly.

Col: But sir, how could we possibly ever accomplish that?

Pres: We'll have all the girls in Nair Hall STREAK!!!!

ANON,

The Bible states, as all good Catholics should know, "Male and Female created He them."

Robert Anderson has recognized this strange phenomena and now with his help Marian College will finally get the news. Mr. Anderson made an exploratory mission into this bizarre realm and christened it by the bizarre title "You Know I Can't Hear You When The Water's Running."

He's 'bared' to the bone the primary fact of nature. "You Know..." studies them, Male and Female, plus all the ramifications attached to their peculiar differences. (For Explanation; See physiology study are some of the practices of the species; such as love, marriage and one, that has been kept hidden with great pains, referred to in private as s e x.

In the interest of providing a well rounded education for Marian students, Denis Weber has chosen to present Robert Anderson's work. He will direct ten students, Herb Finke, Kevin Caraher, Greg Bauer, Maggie Sheehan, Bill Platt, Paul Lauffer, Joanne Johnson, Donna Hyderkhan, Mona Kozlowski and Mary Lou Scherch in this scientific expedition. The simulated habitats of the species are being constructed by Mr. Don Johnson. So no student or faculty member will miss their chance at enlightenment, "You Know..." will be presented three times, March 29, 30, & 31 at 8:00pm in Marian Hall.

Perhaps as a result of these performances, the Marian Community will come to realize that God on the 6th day was in need of a laugh. He pulled the joke of the millenium by creating them, Male and Female, similar yet all too different. Without a doubt, this strange species with their ramifications, weird practices, taboo subjects and confused system of communication serve as the Creator's private stand-up comedians.

As revealed by Mr. Anderson, each member of the race struggles from generation to extinction through an ironic, pathetic, always comic socially imposed quicksand. Yet by some quirk of fate these organisms have the ability to laugh at their continuous mistakes and ridiculous hang-ups.

It is hoped, by being present at one of the performances of "You Know I Can't Hear You When the Water's Running" the Marian community, young or old, powerful or insignificant will learn to do the same.

Remember this article? It's the one about Women's Intramural basketball. Due to lack of energy, talent and time, we missed a few weeks. Among the games that went unreported was the championship between the Team and the Beaver Shooters. Starkie made the last swoosh that saved the team in an overtime battle. Under intrinsic and extrinsic pressures (like the vocabulary Coach Schilling?), The Team once again pulled through their last game. In a neck and neck battle between General Electric and the Cool Ghoules - the game ended with G.E. plugging in the last two points and winning by two! The other bout for the evening provided one last chance for a three way tie - the Fruits had the last stab at the Team. The Fruits went sour (how's that for discription!) and The Team won.

So with a final cheer of T\*E\*A\*M; we'll sign off-

Little Wap, Starkie and Main

-one last note - we'll be back reporting roed volleyball and unfortunately for us and fortunately for you, we're on different teams!

## Final Standings:

Team	8-0
Beaver Shooters	7-1
Fruits	6-2
Gagen's Gang	5-3
General Electric	4-4
Cool Ghoules	3-5
Marian Maniacs	3-5
Amazons	2-6
Virtuous Pagans	0-8

## Carbon Applauds:

- Dr. Gatto
- Upcoming "Care-a-thon"
- Facelifting in Clare & Ad. Blg.
- American Judicial system
- Baseball team's successful Florida trip
- Adjustment - right Hafe?
- Streakers
- Irving's new D: B T.V. set and Rosie's new stereo

## Carbon Hisses:

- Bedroom atmosphere in Bio. Wing
- Women sports reporters who preach about playing B-ball for fun, but go out on the court like animals
