Where were you in '77 & '78?

SEE PETER Raskelnikou, tva-iches! never stopped me before! First, I'd like to thank you for putting up with this admittedly self-aggrandizing column. No matter how nebulous, you always stuck by me. I'd like to thank the theatre dept for disowning me. I'd like to thank the Carbon artists for the Kirk Douglas chin. I'd like to thank the denim without whom this column might not have been written, and would not have been necessary. And, lastly, I'd like to thank Anita Bryant for my Vitamin C deficiency. See Peter (while sale lasts)
