STUDENT BOARD RECEPTION.....

A reception to 'meet the Student Board' will be given Tuesday, Sept. 15 from 11:30 to 1:00pm in the Student Board Room. All faculty and students are invited.

Hello everyone! It's Friday and I'm in a great mood because there are a lot of things to do at Marian College this weekend.

Last weekend was Labor Day and almost everyone went home but this weekend a lot of events are going on so I hope to see everyone around.

On Saturday the Student Board is sponsoring a King's Island Day for Marian College students, faculty, and alumni and I am really looking forward to it! It will be hilarious to see Richard Peak on the Beast getting sick over the 18 pounds of taffy and pizza he consumed. Janie Bube will also be there hanging around the "Off-Campus Bar" since she won't be on call!!!

As for me, I'll be running all over the park especially over by Yogi Bear and Fred Flintstone finding out if they need dates for homecoming!

For those of you who are of legal age and can't scrape up the bucks for King's Island, check out Picadilly's at Eagledale Plaza on Friday night from 5-7 where they have free, yes FREE beer with no cover charge. For an added bonus, all of the ladies get free roses. Also on Friday nights Dallas reruns are on which may sound boring, but get a few bags of White Castles, better known as a "Slider Run" and your evening will be exciting----at least until you digest them!!!

If you are here on Saturday, hop over to the White House for their open house at 3:00. ~~EVERYONE~~, (Even RAs) are invited to see how the girls have designed their new pad. Also on Saturday is steak night which always adds to the fine ARA cuisine. After dinner and church, you can go back over to the White House for more evening festivities.

You might also want to stop by Doyle Saturday night up on 3-east because John Greenlee, Ave, and Zobe are sure to have something going on!!

If everything I mentioned so far still doesn't interest you, find some girls at Clare and watch the tube...or whatever...As a last resort you can always study but only if you are really in a slump for entertainment.

If nothing in this column has tickled your fancy, and you are at the end of your rope looking for adventure, hang on and wait for next week's column which will be exciting---I hope!!

Have a good weekend with whatever you cook up!

FINANCIAL AID NEWS

If you are still needing a Guaranteed Student Loan and have not filed papers for this academic year please do so as soon as possible. If you file after October 1, 1981 the following regulations are in effect:

- Students with family adjusted gross income of \$30,000 or less will automatically qualify for student loans as at present.
- Students with Family AGI income (including student income) of more than \$30,000 will qualify for Federal interest benefits only to the extent of "unmet need" as determined by the school. "Unmet need" is defined as estimated cost of attendance less expected family contribution plus any estimated student financial assistance reasonably available to the student.
- Students with family adjusted gross income above \$30,000, who do not qualify according to the "need test" will still be able to obtain fully guaranteed student loans, but there will be no Federal interest subsidy and no Special Allowance for lenders. This provision is effective on loans which are disbursed on or after October 1, 1981.

We would like to welcome a new column to the CARBON, the "Did You Know...?" column. This column is designed for those students whose parents are always asking.... "What are you learning in school?". Because of the complications of the question, we find it difficult to decide on what vast area of knowledge we should enlighten our parents. Therefore, this column will contain approximately three facts a week and hopefully will satisfy those curious parents who want to see what their money is doing from weekend to weekend.

DID YOU KNOW.....?

- a person's nose and ears continue to grow throughout his or her life.
- if a baseball-sized piece of a supernova star (known to astronomers as a pulsar) were brought to earth, it would weigh more than the Empire State Building
- In the Declaration of Independence as written by Thomas Jefferson, there was a clause abolishing slavery. Because of popular pressures, however, Jefferson deleted the clause.

AEROBICS!

For all those girls who want to keep in shape and for those who want to get in shape.....

This year, Clare Hall Board, is going to be sponsoring aerobic dance classes. The classes will be held on every Monday and Wednesday, beginning this coming Monday, from 8:30 - 9:30. The classes will be held in Clare Hall Gym.

Hope to see all you girls there.

MARIAN COLLEGE HOSTS STATEWIDE STUDENTS CONFERENCE-----

In the next few days you will receive a green flyer announcing a statewide student conference being hosted by Marian College Campus Ministry on Friday night September 25 through Saturday, 5 p.m. (including a Mass for the Sunday). The conference is planned so as to provide opportunity for students to reflect together on the various aspects of the Catholic Faith. It is open to all, regardless of religious background. The conference is free to Marian students, but you are asked to pre-register. The Friday evening session will close with music by Marian's group Spectrum-Taylor. Since our dorms are full, we are asking you if you will host a conference attender for the evening of Friday September 25. If you are willing to do this, please notify Deb Bhagwandin, Dan Remley or Sister Sue.
