P.S. Student Bd- Sunday
7 in Social Council Rm

Well you've been here for a week now
and have had sufficient time to check into
the glamorous social life, congenial people,
and marvelous academic life of Marian College
that you thought you'd find. Hope you aren't
too disappointed, but if you hurry, you
still have time to get a partial refund on

your cash and split. (Those of you who have
found it actually to be pleasant here need to
stay you belong.)

I'm speaking specifically to you freshmen
who have proved to be the same rookies we get
every year, coming to the big city to go to
this slick small college not knowing a thing

The Fioretti is the campus literary magazine:
A collection of the college community's creative endeavors.

The Fioretti depends solely upon student and faculty contributions both for its quality and its actuality. Every student and faculty member is invited and encouraged to contribute. Any form of literary work (poems, stories, articles, essays, etc.) is welcomed. It will be our policy to be as unrestrictive as possible.

Final deadline for the first issue's contributions is Friday, the 23rd of October. Materials may be submitted to either editor or placed in the appropriately marked box outside the Fioretti room in the publications office.

Thank you,

James Asher, Bill Divine
(co-editors, Fioretti)

SPORTS

Preparations for the intramural football season are now being made. Coach George Dickison has announced the deadline of September 21 at 4:00 p.m. All players' names must be submitted at this time. Ten players per team, a captain, and the team's name must be submitted by the deadline. No changes can be made once the roster is submitted.

Cross country runners should see Coach Dickison as soon as possible. The season begins September 29 with Rose Poly.

Coach John Harkin has completed the fall baseball practice schedule. Practice begins September 21 at 3:45 and will be held daily for thirty days. After the practice period, a cut in the roster will be made. Spring practice will be by invitation only.

The following restrictions for players were revealed by Coach Harkin:

"All prospects will report to fall practice in the following condition and remain that way the entire year as long as you are being carried on the current roster. Hair will be neatly cut and trimmed above the ears and necklines. Sideburns will be tolerated only to the bottom lobe of the ear and neatly trimmed. Goatees and mustaches will be forbidden. Any deviation from the above will mean automatic dismissal from the team."

For those still interested, that's Monday at 3:45!

Any sports enthusiast with a command of the language-English and interested in writing sports should contact Elaine Ransom or Dave Soots. We need you.

For further sporting news, check the little black books in Doyle Hall. Or, the library.

about this place or the city. (I know, I was one too.) But before you get into something that you'd rather not be in, I'd like to do you a favor and let you in on a few things.

Marian College ain't shit! I'm saying this to those elite few of you who are going somewhere, to those who want more out of life than just a "liberal" arts education. You see, that's all Marian offers is an excellent "liberal" arts education, nothing more except a lesson in how to flow into the mainstream of American society with your "liberal" arts education. If you are satisfied with life in this society as it is now, you came to the right place. If not, you won't find anything here to teach you about the importance of change, for here, the majority of these people still think we're living in a democracy. (We know that's bull shit!) You are becoming a part of a staunch conservative institution. You may disagree because you've seen certain examples of what you might consider a free society here, but as I'm sure you'll find out, you're wrong. For instance, most of the people here don't dig what I'm trying to say and I don't know

SAHR

The pen is mightier than the sword. As is the case with bear traps and Roman Catapults. In the long tradition of assault and violence upon pure hearts, bodies and minds, the Carbon has opted for the pen. Not necessarily that the Carbon is well adaptable to the pen, but that the pen is readily available and can be concealed easily, with practice. The immediate existential horror of it all confronts us. That is, existence. The Carbon does exist. It is here. Alas, there is no room to speculate. Is it an item to be confronted? Is it itself an item of confrontation? Ah, sweet despair.

Marian College, too, exists. And what exactly does it do? Confront us? Is it to be confronted? For a price, it too is readily available. Your mind? Your money? Your gullibility? Can it be concealed easily? Or do the scars show; not for a year, but for your lifetime. Scars. Treasures. Assault. Challenge. And what has Marian College opted for? What did it choose from? Marian College does, indeed, exist. A place for everything and everything in its place. Marian College. Is there no room to speculate?

FROM THE TOP

The Carbon congratulates all who made it thru registration. If you survived that, and its Great Line-Up, we think you are ready for anything. The Carbon is Marian and the people of Marian's community. We solicit your contributions, your letters-to-the-Editors, and your suggestions. But, most of all, we seek your interest. If the Carbon isn't what you want it to be---then it is your fault.

Anyone interested in working on the Carbon should contact Elaine Ransom or Dave Soots. We especially need a sports writer, a student board reporter, a cartoonist or someone who likes to draw, and typists. Drop us a note in the mail room or come up to the SAC Penthouse on Thursday evenings. HELPS! Your alternative? Four pages of E.Ransom and D.Soots--every Friday. That would only leave us with two readers.

yet, but I might not have the right to say it. The only hope for this society and this school is change and here they resist change like it was some kind of disease. If you haven't seen what I'm talking about, you will as the school year progresses. If you have, you'll hat up now before it's too late. I only hope you don't get stuck here for four years like I did.
