

"The Statement Of A Goal Is Not A Goal"

A most distinguished and impressive scholar, Dr. Morris Keeton, visited and spoke with Marian College faculty and students last Thursday. Dr. Morris Keeton is the present Vice President (President-elect) of the American Association for Higher Education, Academic Vice President of Antioch College, Professor of Philosophy and Religion, and Director of the Campus Governance Program of the Association for Higher Education. He is the author of several books: *The Philosophy of Edmund Montgomery* (1950), *Values Men Live By* (1960), *Struggle and Promise: A Future for Colleges* (1969), and *Shared Authority on Campus* (1971). Dr. Keeton was educated at Southern Methodist University where he received a

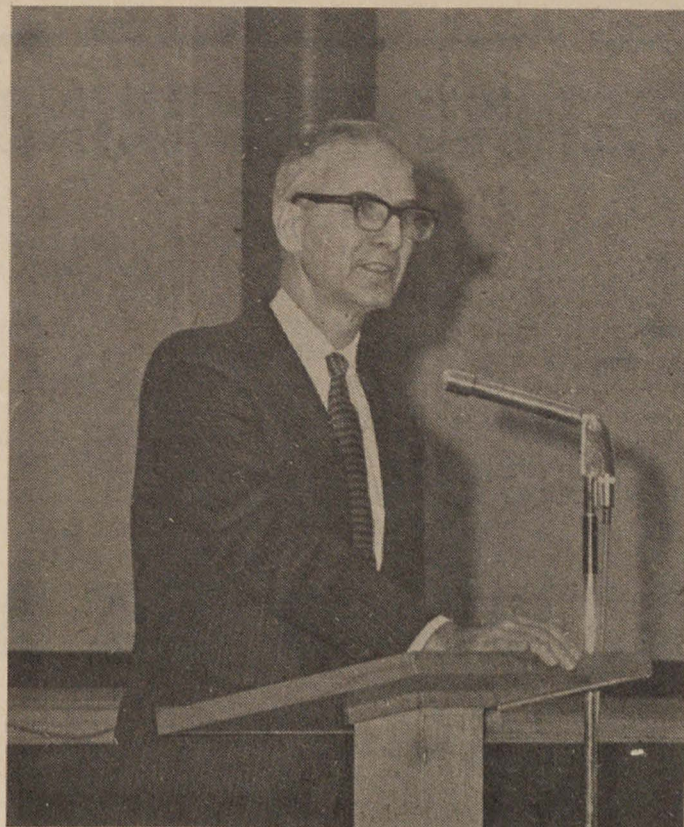

B.A. and M.A., and at Harvard University where he earned another M.A. and a Ph.D. A career of involvement in national and international higher education programs is also part of his vita.

It was in conjunction with the Self-Study Commission for the '70's that Dr. Keeton was invited to the Marian campus. He succeeded in stimulating much thought and discussion among the administrators, faculty, and students concerning Marian's goals for the future.

"The statement of a goal is not a goal." This remark introduced Dr. Keeton's formal address to a sizable audience in the Library Auditorium. The remainder of his talk was a clarification of this statement. Very gen-

eral and vague goals which sound good or look good on paper are worthless. Goals must be at least specific enough and clear enough that there is some indication as to how to begin to accomplish them. Contrived goals, i.e. goals not rooted in real commitment, are weak ones, weak because they only reflect what seems to be the "thing to do" at the time and are based on transitory conditions. For goals to have any value they must be operationally clear and within the capabilities of the institution.

Dr. Keeton met with the Self-Study sub-committee members and interested students in two sessions that afternoon. In these sessions Dr. Keeton offered many interesting insights

Dr. Keeton discusses energizing goals during his visit to the Marian campus last Thursday.

into the problems of higher education. In discussing general education requirements Dr. Keeton said that at Antioch they do not require a certain number of courses but rather a certain amount of gain or achievement. This is attained through individual study, life experience or course work and tested by an academic review committee. Student evaluation of faculty is held in high regard at Antioch. The results are given to the Dean who discusses them with each teacher. Students also have a voice in the issuing of tenure and promotions.

Questions concerning the government of the college were predominant during the second afternoon session. Dr. Keeton feels that a structure which requires proposals to go through more than three levels of approval before adoption is too cumbersome. A number of things could be done to alleviate this: 1) Give committees the authority to make decisions subject only to the approval of one higher body. 2) Cut the number of permanent committees and make the rest *ad hoc* committees

'72-'73 Change

Results of the recent vote on the proposed calendar changes for 1972-1973 showed that a definite change was preferred. The majority of students preferring a change chose either Plan A or C, both which schedule first semester exams before Christmas. The faculty voting also resulted in the same two majority choices. Of Plans A and C, Plan C was most popular among both the Students and faculty. With this plan first semester classes begin Sept. 8 while ending Dec. 21 and second semester classes starting Jan. 15 while concluding May 11 (exams inclusive).

Rather than the regular 50 min. classes, Plan C would require classes to be 55 min., cutting the semester 1½ weeks.

Discussion and final voting is scheduled for Tuesday, Jan. 11 by the Faculty Council.

to function only when needed. 3) Set up one college government with equal representation from administration, faculty, and students. 4) Decentralize, i.e. let departments make decisions for change subject to revision from above after the change rather than before.

Spurred on by Dr. Keeton's insight and encouragement the Self-Study Committee will meet with renewed energy in hopes of finding the best path for Marian to follow in the 70's.

Concert Loss Disclosed

Marian College Student Association has been forced to face another loss in presenting the Lighthouse Concert on Saturday, December 4th. This was the first concert sponsored by the school in three years. Total loss was \$5552.48 as reported at the Student Board meeting by treasurer, Mike Mottram.

Reasons for Student Association treasury taking such a loss can be disputed and discussed with little avail. Some of the possible reasons given at the Student Board meeting were that Indianapolis has the reputation of not drawing great crowds to its concerts, that Marian facilities are not conducive to such a concert, advertising not extensive enough, etc.

The Lighthouse group expenditures totalled \$5500. Their management group was \$500; their warm-up group was \$200. Other expenditures such as advertising, spotlight, tickets and security guards amounted to the total cost which was \$6821.98. Along with the money allotted by the school for this social purpose and with the total income earned, the loss that is present is \$1745.07. This money will be supplied by the different clubs and activities that have a padded budget.

Mike Mottram said, "In my opinion, the advertising done for this concert was the best for our budget. We did expect more kids from our campus to support this and I was disappointed when they failed to."

NEW COURSES ADD VARIETY

With the ringing in of the new year, Marian College brings forth some new courses offered for the second semester. Ranging from a psychology course to a foods course, these new subjects were designed to help the Marian College student in furthering his liberal arts education.

From the psychology department comes the course entitled 'Human Learning and Cognition' which will be taught by Dr. Adams. It covers material from problem solving, verbal learning and language development to memory. This psychology course is not only offered

for psychology majors, but others interested in psychology. The only prerequisite is a General Psychology course.

Sister Miriam Clare of the Foods Department announced another new course, a Quantity Foods Lab, to be offered at the I.U. Medical Center. Here, under the direction of Miss Bernice Boucher, administrative dietitian, and Arline Wilson, educational director, the students become familiar with larger equipment and can prepare meats, vegetables, baked products and desserts with expert advice. This is a course offered in cooper-

ation with the Medical Center Dietary Department and Marian College.

Radiobiology and radiobiophysics are being offered by Sister Marie Bernard who will teach the biological lab part of the course. The first course will be the general principals of radio isotopes and their mechanisms for detecting radiation. The last part of the lab will be work in the student's particular area. Radiophysics, the other part of the course will be taught by Sister Jean Gabriel. This course is a combination of Chemistry, physics and biology.

Another new addition next semester will be Natural Science Honors. This science course is to be taught by Mrs. Dayton.

VOLUNTEERS NEEDED !

Mr. Alfred Fennel of Cold Spring Road Middle School has asked for volunteers to help with tutoring sixth, seventh and eighth grade students in all areas of study. Children are bussed in from inner city schools to this school which places emphases on the individual needs of the students. Tutoring will begin second semester and hours for tutoring will be arranged according to the schedules of Marian College students. Anyone interested in volunteering or seeking further information, contact either Sr. M. Norma or the Education Dept.

Rick Ebinger displays a portion of his netting ability in Wednesday's game against Wright State.

WISHING THE RAINBOW

It takes both rain and sunshine to make a rainbow.

lesser ordeals of life. So both the rain and sunshine are necessary before one can find his rainbow.

The rainbow represents real happiness. The rain symbolizes the misfortunes that befall us and all the mistakes we make. The sunshine denotes all our friends and the good, pleasant things that happen to us.

In the past year I have experienced my share of rain and also an abundance of sunshine. It has all added tremendously to make rainbows in my life. I wish this happiness in the new year to all.

C.Q.

A SHOT IN THE ARM

Dr. Morris Keeton was the "shot in the arm" the Self-Study Commission Committees needed. After a year and a half of work some committee members seem to have lost their original enthusiasm. Some administrators, faculty, and students have been heard to say, "Nothing much will come of the Self-Study anyway, so why waste so much time on it?" Significant change requires much thought and planning. Dr. Keeton was impressed with the work accomplished thus far by our Self-Study Committees particularly the work of the Committee on Institutional Goals and Objectives. He feels that we are "on the right track."

What will it take to continue "on the right track" and to conclude the study with satisfactory results? Much hard work...many more meetings...greater involvement on the part of all administrators, faculty, and students...more open expression of opinions...the renouncing of vested interests for the greater good of Marian College...a deeper trust in each other.

Can we do it? We must. Marian's future is at stake.

sft

LETTER TO THE EDITOR

The Food Service Committee met on Thursday, Jan. 6. Opening of the cafeteria to students on exam nights was discussed. The hours will probably be the same as last year, including three days of exam week, from 9-11p.m. Brownies, chips and drinks will be available to all dorm students free of charge, while off-campus students must pay.

informed us that according to Saga's contract, meat at breakfast will only be served three times a week, including Sundays.

The Perc's new hours were discussed. It will be closed from 3:30 til 7:00 p.m. and open again til 10:30. The reason for this change was that there wasn't enough business to meet the costs involved.

A suggestion was brought to Ron's attention regarding more meat at breakfast. Ron

The stereo equipment which was formerly being considered for the caf is no

longer feasible due to the loss of funds from the recent concert.

The next meeting will be February 3 at 12:30 in the priest's dining room. Please let us know your complaints/compliments. If you have any other ideas we would be glad to hear from you at the meeting.

K-N-I-G-H-T-S Hail to the Marian Knights

For anyone who has attended the Marian Knights home basketball games the new sound of the pep band has proven to be an effective spirit-raiser.

The pep band, under the direction of John Sweany, also entertains with pre-game and half-time selections of pop and show tunes.

"Although past pep bands have been organized, the music department decided to form a

constituted body of musicians who had practiced and rehearsed a program of appropriate music," Sweany explained. By dividing the concert band in half an average of 16 instrumentalists team up to present a polished musical background for ten home games in the Marian gym.

The Booster Club has already expressed its support for the pep band as a spirit-raiser by

financing the purchase of new music for the band.

While plans for the band go no farther than its present scope, its director is pleased with the response from the coaches, faculty and students. "Everyone has remarked to me that the band has been effective in at least making everyone aware of the school song. I'm very pleased with the response," Sweany added.

U. B. I. Activities

U.B.I., the Union for Black Identity, is an active club on campus. The club was founded in 1968 by five black students. It was organized to meet the general needs of Marian's black population and also as an incentive for present and prospective black students. It serves as an instrument of identity for black students. The club seeks to become a system through which the black students become predictable in their behavior.

All black students are potential members, which gives them the prerogative of joining. Approximately three fourths of the black students on campus are active members.

The officers for 1971-1972 are: President - Richard Geaither, Vice-President - William Smith, Secretary - Verne Wyath, Treasurer - Arlene Webb.

Activities held this year include "To All Black Women From All Black Men," a tribute to black women, and a Christmas Party for Inner City Grade Schools, held December 16th.

Activities planned for second semester include Black Culture Week, February 6th to 12th, and Black Saturday, early in May.

Women's Sports

The Women's Varsity Basketball team has been practicing hard for the past few weeks for their upcoming season. Composing this year's team are: Peggy Smith, senior; Jeanne Grace, Barb Meyer, and Nancy Perkins, juniors; Maria Kress, sophomore; Deborah Clay, Patty Eder, Karen Flischel, Chris McMillen, and Anne Monnot, freshmen.

Women's Intramural Basketball began last Monday night on a chaotic and highly competitive note. In the first game, The Last Resort easily defeated Kirch's Birches 25-4. The B.A.'s squeezed past ? 15-14; and The Beaver Shooters breezed past

Spotlighting

Leading the cheers this year for the Marian College Knights are Susie Schnepf, an elementary education major from Decatur, Illinois; Janet Kitchen, a theatre major from Plymouth, Indiana; Kathy Lowe, from Indianapolis; Patty Baumer, a physical education major from Centerville, Indiana, and Jane O'Brien, a physical education major from Evansville, Indiana.

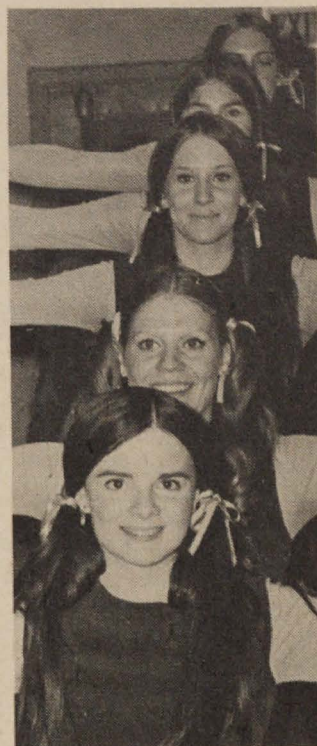

According to Susan Schnepf, captain of the squad and a third year cheerleader, the new series of cheers debuting this year are the results of many hours of practice. "We practice Tuesday and Thursday evenings for one and a half to two hours. Often we hold non-scheduled practices, for instance, due to Patty Baumer's injury we have had to re-arrange the cheers for only four girls," Susie explained.

This year the whole schedule of cheers was revamped. With the aid of Janet, Patty, and Jane's experience as high school cheerleaders and their additional experience at cheerleading clinics, the program of cheers was revamped to include acrobatics and precision movements. "We looked for the right kind of cheer to suit our needs," Susie added. As the only returning cheerleader this fall, she too had to survive tryouts that were held in the pre-

Da Pacers 34-2. While the Out-of-Towners won over T.F.W.C. and Friend 17-3.

The competition proves to be very exciting as the games continue, and the skills are bound to increase. The games will be played until March on Monday and Wednesday nights from 8:30 to 10:30.

On Monday, January 10, the action continued with The Beaver Shooters outscor-

Varsity cheerleaders, from bottom to top: Susie Schnepf, Janet Kitchen, Kathy Lowe, Jane O'Brien and Pat Baumer.

basketball months. "Each girl performed one original cheer and one assigned cheer. We held our own clinic to help choose the best girls," Susie explained.

In reviewing the cheering season at midpoint, the squad captain had this observation, "This season has been wonderful so far because we had such good games. All the other cheerleaders are acrobatic. I'm very pleased."

ing T.F.W.C. and Friend 17-6. The Last Resort came out on top over the Out-of-Towners 17-3; and the B.A.'s bypassed Kirch's Birches 23-3. In the final game, ? outpaced Da Pacers 28-6.

The games will continue after semester break with the Beaver Shooters, the Last Resort, and the B.A.'s being the only undefeated teams.

KNIGHTS NOW 9-4

The Marian Knights, after suffering successive losses to Xavier and Wright State, rebounded strong to humble the Purdue-Calumet Pipers, 115-85. This win gave the Knights one more victory than their entire total for last year and moved their record to nine and four.

Jim Apke hit a free throw to make it 1-0 and Rick Ebinger put the Knights ahead for good with his bucket to make it 5-3. From then on it was just a question of how big the final score would be.

Bill Smith, playing his usual great game, zipped in 29 to pace the Knights. Pat Murphy came in the second half and hit 13. Apke and co-captain John Springman made 11 and Earl Brinker 10 to give the Knights five men in double figures. Ebinger, Al Glaze, and Greg Pawlik were a step behind with 9.

The Knights hit 52% from the field, an encouraging sign for coach Ed Schilling, and 70% from the charity strip.

But the real superiority of the team was evident in the board play as the Knights piled up an astounding 63-23 advantage on the planks. Apke and Smith led this department with 15 and 11 grabs respectively. And super quick guards Springman and Glaze awed the crowd with their adept ball handling by notching 10 and 6 assists.

The win was a big one for the Schilling coached squad as it broke a two game losing streak and perhaps got the team back on the right track as it begins to face a bundle of important N.A.I.A. foes.

Wright State invaded Marian's den last Wednesday night and went away with a hard fought 109-107 double overtime victory, much to disappointment of the many avid fans that packed Reynolds Fieldhouse.

Jim Apke hit Marian's first point as the Knights bolted out to an 11-4 lead. But Wright State battled back and took the lead at

27-26 with 4:10 left in the half. From then on it was nip and tuck until intermission when it was knotted at 40 all.

The second half began much like the first as the Knights were hot and rolled out to a commanding eleven point lead when Ebinger hit a three point play. But the visitors kept chipping back on that lead as Marian couldn't bust out and salt the game away. They finally caught up and regulation play ended with the score 87-87.

Marian led by as many as three points in the first overtime as Bill Smith dropped in 6 of his team high 35 points. But once again the Raiders came back and tied it at 99 to force yet another overtime session.

The second 5 minute overtime was disastrous for the home team as Wright State rolled to a 6 point lead and were never headed. Mark Gayer hit for 4 in the extra

period but it was just a case of too little too late.

Take nothing away from Wright State because they came to play and were not just to be denied. They wanted this one and it was simply their turn to win.

Smith led the scoring parade for the Knights, but had good support from Apke with 21, Ebinger with 17, Springman with 14 and Joe

Wade with 11.

The Knights out-rebounded the scrappy visitors 42-41 but it mattered little because they shot 51% compared to their season average 37%.

Our favorite team has some rough games coming up, so please continue the great support you've shown thus far. The Knights appreciate it.

Ping-Pong Champs

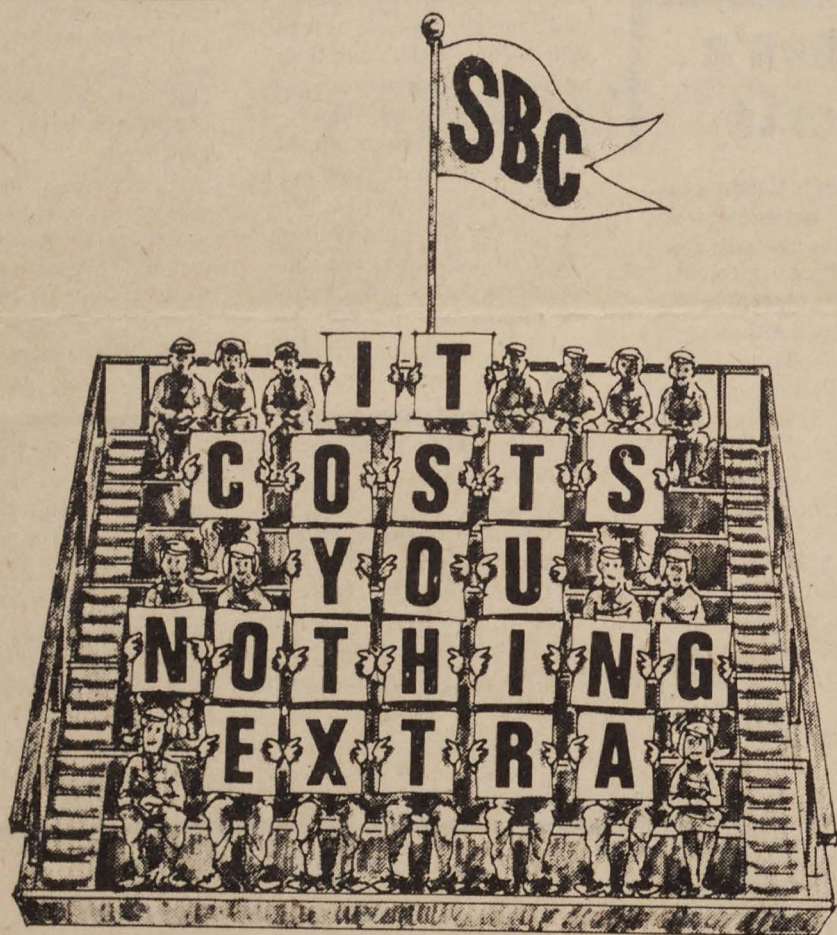

Bill Scholle, the left-handed ping-pong whiz from Yorkville, Indiana, recently won the coveted Doyle Hall championship and solidly established himself as the top player in the men's dorm.

Scholle, second place finisher of a year ago, put forth a determined effort to defeat sophomore Rick Foxen by a score of four games to one and capture the crown before a sparse crowd at a recent open house.

Bill, who credits his success to quick reflexes, great concentration, and a burning desire to win, when asked to comment modestly replied,

'I was lucky to win. Rick is a great player and he gave me a lot of trouble. I played good defense and got a big edge by winning the important first game.'

Dave Martini and Bob Chinosornvathana captured the doubles championship by whipping freshmen Jim Thezan and Ken Aust. Dave and Bob, who earlier pulled off the biggest upset in tourney play by defeating Scholle and Foxen, displayed fine team work and well balanced mixture of offense and defense to get the job done over the battling frosh.

...and saves you money.
