

THE

CARBON!

November 14, 1956

This week the Sodality has announced its plans for supporting a very special desire of Pope Pius XII, that a day of prayer be set aside by free nations for the people of Hungary. Hungary is at the moment the supreme example of what a Soviet controlled world would be like. There may be other Hungaries in the future and there may be even greater tragedies ahead, but it is not believable that any worse suffering inflicted by man on man is possible. The destruction of cities, the filth, the starvation and near-destruction of the race are crimes that cannot be forgotten by real freedom loving peoples. The least we can do, and the greatest thing we can do is to pray for these people. The Sodality asks that you attend Mass and receive Holy Communion that morning, join in the adoration of the Blessed Sacrament during the day and finally, attend the Benediction after the 2:30 class. We don't believe that you need any coaxing.

THE PACKING-CRATE MYSTERY

What is it? What is that tremendous monstrosity in the basement corridor? An early Christmas present? A giant, economy, familysize Texas Fifth? Rumor has it that the "M" Club has hidden something in that immense super-structure. People are asked to guess the contents of said container, the first five correctly guessing the contents of the crated wonder are to receive a pass to our basketball games. (People with hatchets are disqualified.)

A SUCCESSFUL WEEKEND

A poll showed that all participants found the weekend retreat at Alverna most satisfying. A closed retreat is something that everyone should experience at least once in his life.

At a Tuesday meeting at noon, the Student Board approved the measures suggested by a traffic engineer as to the placing of one-way and stop signs on the campus driveways. They will be enforced with the other traffic regulations on campus so as to provide greater safety and convenience for the majority of students.

"DROP IT IN!"

Tuesday, November 20, Marian will open its basketball season against Franklin College at the Cathedral Gym. As yet we have received no word on the Boosters' Club, but don't let that hold you back. Everyone come, everyone cheer, and make this a big basketball year. After the game the "M" Club is sponsoring a coke party for members and friends.

ELEVATING THOUGHTS

Statisticians estimate that 93% of those using the elevator here have no business on it (or in it).

Other authorities estimate that one of these days an unnecessary lift will result in a depressing interview.
