CCC
Remember some time ago when the Sophomores announced that they wished to organize a Campus Conservation Corps? Wril, even though they haven't received much publicity, this project has steadily been going forward.

As proof of this just take a good look a.t the leaf-free lawns around the library and the "new look" taken on by the fireplace and the picnic area down behind the Music Department.

In order to complete this project, much more help is needed, so how about breaking out the shovels and the rakes and giving themra hand, huh? You may be sure it'll be pppreciated. Just contact Sister Adelaide of the Biology Department;
