THE CAPACIOUS CARBON

To M.H. "Out of thy own mouth....."

Why?

A body of students is one of the most complicated, inconsistent amalgamations that can be constructed. On one hand we complain bitterly that we are being subjected to autocratic controls and on the other we refuse to support student government in the most nominal way. We complain about required retreats, parking regulations, the cut system, a lack of intellectual and recreational activities, and a host of other problems; and we constantly refuse to air our criticism in a constructive manner. We confine our remarks to caustic, irresponsible tirades and idle conversation. We complain that we are not being informed about Board activities, that there is a lack of communication between the students and their student government, yet we cry at the misery involved in attending a required assembly. "If liberty and equality, as is thought by some, are chiefly to be found in democracy, they will be best attained when all persons alike share in the government to the utmost." (Aristotle) Our student government is a voice of the students, the liaison between the students and the administration. It is a valuable aid in the formation of policy that will be of greatest benefit to the college and its students.

Required Retreats

The Board formulated a proposal which has been presented to the administration concerning the abolition of required retreats. The proposal read as follows: "We, the Student Board, suggest that the administration cancel required retreats for Sophomores, Juniors, and Seniors on a two year trial bases."

The administrative deans accepted the proposal with a promise to present the suggestion to the administration when they meet. However, they assured us that nothing will be changed in the retreat policy this year.

Mixed Lounge Notes

The Student Board voted approval Tuesday Evening for the redecorating of the Mixed Lounge. The plans call for the partitioning of the southwest section into a television room. The partition will be 48 inches high and will be topped with divider poles and planters. A slight change in the color scheme was recommended by the interior decorator to break up the expanse of the room. In addition, some new furniture will be purchased as finances allow. The decorator recommended that new tables and chairs be the first item on the agenda in this area. The vending machines will be moved into a separate room as soon as the necessary electrical outlets are provided.

Mr. Divita: "And you, Joe, can you tell the nationality of Napoleon?"

Joe: "Course I can."

Mr. Divita: "That's right."

What will the June brides think when they walk into the Church?

This week the CARBON penetrates the mysterious veil of the Far East to give the students of Marian College a first hand view of one of the powers that control this little-known land. Disregarding the obstacles of the mighty Himalayas, pushing aside turbulent political factors, social upheaval and economic chaos, we move deep into the heart of the exotic East to probe one of its most controversial figures, Sister Mary Buddhatutor. Awed by the omnipotent air of the powerful personage, her subjects have bestowed upon her the respectful but fearsome title of the "Dragon Lady". This mighty monarch maintains her preeminent position by one of the most effective displays of terror that freshmen ever experienced. This inculcated fear permeates their entire being and guarantees their complete and unquestioned submission to knowledge and the will of the "Great White Mother". The power of this "benevolent despot" is absolute. With a single gesture she can crush the most inflated ego, reduce a student's meager morsel of uninformed information to pitiful crumbs and smash un-
scholarly endeavors beneath her heel. By pinching the bridge of her nose with the thumb and forefinger, a shake of the head and a hearty "Oh my, no, no, Mr. So and So," you are reduced instantaneously to cosmic ash. The CARBON salutes Sister Buddhatutor!!!!

Track and Field

Many Marian College men have expressed an interest in varisty track and field. The administration and coaching staff welcome this interest. Those who desire to train and compete in this most noble sport register with Mr. Reynolds by Friday Feb. 18. Issue of equipment and practice will begin Monday, Feb. 21. If enough students show that they will stay our full time, Marian College will arrange a schedule this Spring.
