

The CARBON

No. 22

ONTOGENY RECAPITULATES PHYLOGENY

March 22, 1963

Board News:

Student Activity Fee has been raised \$2.00 per semester. \$1.00 will cover the rising cost of the Year Book and the other dollar will be collected as Class Dues.

Student Board nominations will be held in two weeks. The Officers of President, Vice President, Secretary and Treasure will be nominater for. If you wish to nominate someone contact your class president or any Student Board Member. If you want your man in office - here is your chance.

SPORTS NEWS:

The major sporting event of the week occurred last Wednesday evening as two experienced "hustlers" approached the male division of the CARBON staff. Mike Werner and Tony Watt spend most of their time hanging around pool halls, so the odds seemed to be in their favor. Messrs. Mercier and Hughes, being well rounded individuals, had a working knowledge of the art of pocket billiards, and therefore agreed to a contest. Oddly enough, when two hours had elapsed, the Wallets of Watt and Werner (notice the alliteration, please) were considerably lighter. The two "old sports" of the CARBON had shown the opposition a lot of TROUBLE (right here in Indiana City) by winning 9 out of 11 games of 8 - ball!

The CARBON...

CONSOLES Bill Davidson for his foot injury suffered while running track.

APPLAUDS the Sophomore girls for undertaking the project of redecorating the Womens' Lounges

NF PRESIDENT HERE

Marian College was privileged and honored yesterday with a visit by John Simone national president of NFCCS, who is currently touring the country. Before speaking to a group of interested students during the assembly period Mr. Simone conferred with the Dean of the College and the NF moderators. He then set up headquarters in the Perc, where he held several different audiences spellbound. It is hoped that his visit here will stimulate interest in the NF movement. With him representing NF, how can it miss?

THE TRACK TEAM HAS MADE TRACKS...

...for the woods, it would seem! Just a few weeks ago Marian men were screaming for a track team, and now it seems that the Track team is screaming for Marian men. For the last few nights there have been a grand total of five (5) tracksters showing up for practice. This astronomical attendance figure has been enough to put a shade of doubt in the mind of the well - qualified and highly interested coach. Where are all the young men who were so anxious to sign their names on the list? Don't they realize that when they sign something they have resulting obligations.

* * * *

A Peace Corps film will be shown in connection with a Peace Corps representative who will be on campus March 24 and 25. Pertinent information about the fine work the Corps is doing will be available. All those interested in any way are invited to attend. Detailed information may be found on the main bulletin board.

Is it true that Mary Ellen Stead ruined Donna Tatroe's 2 - year honors project?

WHAT DOES MARIAN COLLEGE NEED?

This is the continuance of the survey of Marian College students' views concerning the improvements of the college. We are prone to criticize other peoples' efforts. Have you ever stopped and asked yourself: WHAT HAVE I DONE TO IMPROVE MARIAN COLLEGE?

"For centuries the Rock of Gibraltar has been renowned throughout the western world as a pillar of invincibility. Today a rival has risen to challenge its time honored position, our own mixed lounge. A more impregnable position has been unknown in history. Never has a place been more ably sealed against invasion. To gain admittance in the early evening and on weekends involves a long and frustrative process of trying every door in the building. At various times an individual can be locked out of the lounge, locked in the lounge or conveniently shut off from the telephone by a cleverly devised system of locks and chains. These facts may have more repercussive psychological effects than those afflicting the Spanish when they lost Gibraltar and a degradation of morals in regards to language unparalleled in the memory of man. This is not a complicated problem; there is a key to the situation."

- Mike Brown

"We need a better athletic team on campus. This can't be done unless we have more boys. This can only be accomplished by the building of a dorm for boys."

- Art Jonas

"Students should be educated in their duties to the Board and the school. For the freshman class, there should be some activity for the whole class to work on at the very beginning of the year. For the school as a whole, some kind of activity should be planned on weekends here at the school, perhaps every other week or once a month: first, to convince the town students that Marian is more than a series of classrooms, and, second, to give the dorm girls something to look forward to on weekends."

E. Looney

GRIEVES OF CLASS

Sophomores the time is fleeting
For you to attend a class meeting.
The year is almost at its close -
You should go to one - heaven knows!

In the officer's ears complaints ring
"The same people do everything".
To the same people we must keep turning
If you've missed a meeting - your ears
should be burning!

Critics can be easily found -
Disorganized Sophomores punning around?
No, the Sophomore cliques number but two.
Those who don't and those who do.

SOPHOMORES!! get up off your chair -
Let Marian College know you're there!

TERRY'S POEM -

(FIRST VERSE TRANSLATED)

Ah, with the grape my fading life provide,
And wash my body whence the life has died.

And in a winging sheet of vineleaf
So bury me by some sweet Gardenside.

The wine that can with Logic absolute,
The two and seventy jarring sects
confute;

The subtle Alchemist that in a Trice
Life's leaden metal into Gold transmute.

YCS Announces:

Tuesday, April 2, YCS will sponsor another coffee hour. The topic is, "Should the Vernacular Be Used in the Liturgy?". Monsignor Goossens will take the affirmative stand and Fr. McLaughlin will represent the negative viewpoint.
