DEEPEST SYMPATHY

Carbon joins the rest of Marian community in extending a heartfelt sympathy to Rev. Fr. Bryan on the loss of his father last Sunday.

'Any man's death diminishes me, because I am involved in mankind. And therefore, never ask for for whom the bell tolls - it tolls for thee.'

-John Donne

Rules are made for a reason. This reason is to protect the rights of all the people living in a community.

Every person in a community has the right to expect privacy during certain hours of the day, privacy to go scantily clad through the hallway without the fear of running into a member of the opposite sex.

Every person also has the right to quiet during reasonable hours of the evening. No one should have to tolerate stereotypes and/or general noisy rowdiness into the wee hours of the morning, denying the possibility of study or sleep.

It is the obligation of every person in a community to take into account the other members of the community and to have consideration for their concerns. The rights of others cannot be ignored merely for the amusement or satisfaction of a few. The rules are made to protect the common good and to set limitations or give boundaries on what constitutes acceptable behavior.

I feel the size of Marian's dorm community makes the spirit of cooperation a necessary part of living. When you come in contact with every person of the community on a near daily basis, consideration of others is a fundamental and integral part of maintaining the community. The reflection of these rights, within the rules governing our actions, make them indispensable and vital to the continuation of order within our community.

SR. MARY JANE PIENE

It is with deep regret and a sore of heart that we mourn the death of a soul that inspired the spirit of the Marian Theatre and Art.

Sr. Mary Jane Piene who was a nun for nearly sixty-five years celebrated her Platinum Jubilee recently and was sailing smoothly towards her Diamond Jubilee, when she was suddenly struck by a stroke that blew the light off the Candle. Though the flame has ceased to burn, the Candle is still luminous and surely will continue to radiate the goodness of this nun who feared none to do her duty to fellow man.

May she rest in peace.

TO THE EDITORS,

I wish to take issue with Dennis Hanley on the question of married clergy (Oct. 12). His last question 'how many people can be in love with someone and still offer selfless and total dedication to the church?' really bothers me.

Love is not selfish. Celibacy is not an attribute that guarantees 'selfless and total dedication to the church.' I can only think of one religious person who fits Dennis' description—Mother Teresa of Calcutta. And I would be hard pressed to find a priest to fill the bill.

I feel that marriage helps one to share one's gifts and be dedicated. One couple I know gives very unselfishly to the church and to civic concerns—Mary Jo and John Day. She is a former nun and now a D.R.E. at St. Monica parish. She is more loving, more dedicated and a lot less selfish than when she was a nun. John is a graduate of Marian and filled with charity. He does more for youth, the poor, the underprivileged than any priest I know.

I feel the priests should have an option for marriage. Some of the best men have left the priesthood only because of this one problem. That does not mean they were selfish or less dedicated.

Dennis also questions how a priest can "deal with the problems of his religious community if he is also having problems". Perhaps that would make him better equipped to handle problems. He would be more understanding and practical because he, too, had walked the same road. (ed. note: the fact that priests are unmarried does not eliminate them from having problems of their own.) Now, much of the advice given by priests and nuns is pure theory. Put to practical daily living of problems, it is as full of holes as a sieve.

A wife for a priest would add a whole new dimension of love and support to the man and to the church. Of course, we, as a church, are not ready for this yet. But someday..... Then following may come the ordination of women. (I better quit while I'm ahead.)

SHAKESPEARE'S TWELFTH NIGHT?

While respecting the Marian Theatre for having taken a bold step in trying something new with "Shakespeare's Twelfth Night", one cannot refrain from pointing out the fact that, venturing an originality on an age old Royalty of the English Theatre, cuts away its originality. When one speaks of the 'Universality of Shakespeare', one associates one language, one style, one mode, to convey one message to all entertainingly. The good old English language written in gold, soaked in wit and wisdom, losses its splendour and strength when butchered with modern common language.

What one could have done to cater to a box-office, would have been;—patterned a story after the Bard's "Twelfth Night" and given another name for the play. (Continued top of next column)

TWELFTH NIGHT? (continuation)

In this way, it would have been only an adaptation from Shakespeare. "Twelfth Night" was Shakespeare's but that which we saw the other night, was not.

Now, forgetting about Shakespeare, forgetting about "Twelfth Night" — what we saw the other night was indeed hilarious. An all new cast, proved on stage, that a promising future is ahead for the Marian Theatre. The set design depicting the saloon scene, the glorious costumes adorned by the players, all combined to give colour and glamour to the fall production of the Marian Theatre. What one particularly observed in the play was, — group effort. Every single actor, actress, and crew member getting together to put together this Marian venture, was distinctly obvious. Our congratulations go to the Directors, players, crew members and others for a job well done! It was indeed an entertaining evening!

TWELFTH NIGHT!!!!

Consider comedy of today as in relation to Shakespeare's time. Basically there is low and high comedy.

High comedy depends on the wit: low comedy on the situation. Shakespeare wrote for both. He had to. His audiences consisted of a wide range of background. There were the upper class in the gallery seating and there were the groundlings on the ground. Therefore resulting in high and low humor. Now consider the presentation of comedy today. Today's audiences may see it live in theatre or recorded (on film, television, records, cassettes and eight track tapes). Now realize what the American economic system has done to our education. They make money on making life easier for us. We are brainwashed. America is sold on the boob tube, and we are boobs. We have fallen so greatly that we've lost the essence of wit. It's surprising how much your mind sharpens when you sharpen your wit. How many jokes can you think of when you think of the things you learned in Humanities? It's surprising.

Now take Shakespeare again—no take Ann Hathaway, please. We've now lost the essence of the wit of Shakespeare. It's true why can't we face the facts. We know on the majority that we can't understand it without study. So why go to a theatre production and sit through something you can't enjoy because you just don't understand it. A good Shakespearean production takes above amateur skill and time as well as the knowledge of it all. Live theatre is to be enjoyed for the experience. I personally enjoyed the experience.

It was a good production for the amount of time and skill put into it. I don't mean just the cast, I mean everything. Mostly the production was an excellent example of a good learning experience. The ~~cast~~ learned, the audience learned, and I learned because of what knowledge of Shakespeare and theatre I came with.

TO THE MASSES

Well here I am after the 7th Annual Hallo--ween Party of Transylvania still in a drunken stupor and I don't know where I am. But a few shots of whiskey will straighten me up.

On behalf of LAGNAF I would like to thank all those beautiful and generous females who contributed to the team fund. We would like to submit a composite of our dental bill to Kim on your behalf.

Well all you talented young Bavarians, it's Gonging season again. The Gong Show is coming up and it's going to be good. You don't even need to be talented to be in it. I speak from the experience of 2 past gong shows and 4 gongings. But this year I'll make my act so short they won't have time. Ha ha. There will be a meeting early next week about the details so stay tuned.

The Yearbook subscription drive is coming up also and it's going to be good. Jimmy Carter gives us his vote. Bill Hitchcock said it was good, I mean wild.

Well I've got to be going now. The Rugby Festival in Bankok, India is this weekend and me and Pappy are playing in the Doubles Finals. Hasta luego and parle vous france. What time is it?

TO THE MASSES

Dr. Carlson and I are going to run in a 10 kilometer (6.2 miles) race at Eagle Creek Park on Saturday, November 17 that is being held as a fund-raising project by the American Cancer Society. In order to run in this race, each participant must be sponsored by a number of people who will pledge a certain amount of money for each mile run. We are looking for sponsors! If we have ever made you work hard and sweat in one of our classes, this is an excellent chance for you to get even. If you pledge a mere 16 Cents per mile, you will be paying a total of only \$1.00 for the priviledge of making us run the whole 6.2 miles! If you are interested in this type of vengence (or if you would just like to contribute to a worthwhile cause) please see us and we will be more than happy to sign you up as a sponsor.

Overall since the last Carbon was printed we had 5 wins and 4 losses. Our next and very last game before State is at home against Butler next Tuesday at 6:00. Since it is our last game why don't you all come and show your school spirit. So be there or be square.

THE GREAT AMERICAN SMOKEOUT

Thursday, November 15 is the date of the Great American Smokeout. On this day, the American Cancer Society asks people all over the country to quit smoking for just one day.

Last year, for example, 3,600,000 smokers quit for the day; another 10,400,000 cut down, and another 2,400,000 were still not smoking two weeks last.

This year, why don't you and a friend take the pledge?

Join us in this campaign. Stop in the Carbon Office next Thursday to pick up your pledge card and sign our sheet. All fearless participants will be announced in the Carbon. Names of survivors will be printed the following week. Let's all support each other and make it through what will be one L-O-N-G day!

PLEA FOR HELP

I recently received a letter from the National Tax Limitation Committee (NTLC). This nationwide organization is fighting to get an amendment to the constitution passed that will severely limit the amount of money spent by the Federal Government. Although this amendment doesn't concern us as directly as the 'working man' it will have all too much relevance for all of us in the not too distant future. I think the task of the NTLC is of enough import to warrant our support. Here are some little known facts about how the Fed. Gov. is spending our tax money: *Tax payers worked 153 days of last year just to pay taxes. *The present Federal budget is \$500 billion. \$375, \$375,000 of which went to the Pentagon's study of the Frisbee." \$121,000 to find out why some people say "ain't". I will gladly let anyone read the letter I received. The same goes for the amendment. The amendment will constitutionally limit the Fed. Gov.'s wasteful spending and reduce the amount of taxes citizens will have to pay. (Cont. next column) -

Now I lay me down to study,
I pray the Lord I won't go nutty.
And if I fail to learn this junk,
I pray the Lord that I won't flunk.
But if I do, don't pity me at all,
Just lay my bones in the study hall.
Tell my teachers I've done my best,
Then pile my books upon my chest.
Now I lay me down to rest,
To pray I'll pass tomorrow's test.
If I should die before I wake,
That's one less test I'll have to take.

All the world's a stage
All the roles we play
All the lines we say
An actors part, right from the start
We do it every day
All the world's a stage

Life's a funny thing
Irony comedy
A jester's tragedy
You smile to yourself
In a self assured way
For try as we might
We can't get ahead of the game
Life's a funny thing

All the world's a stage
Turn another page
A constant change of scene
Though melodrama comes and goes
It's best we laugh, enjoy the show
We live it every day
All the world's a stage.

PLEA FOR HELP (conclusion)

NTLC is distributing Petitions in favor of this amendment, addressed to President Carter, to be returned to the Pres. of NTLC. He in turn will present the petitions en masse to the President, increasing their impact and eliciting the headlines needed to make their campaign a success. I am sending for additional petition forms. People interested in supporting this cause please contact me. The body of the petition reads as follows:

WHEREAS, taxes levied by the Federal Government have become so excessive as to cause a severe burden to every working American and
WHEREAS, Federal spending has created massive inflation which is robbing America of its prosperity;
WHEREAS, our tax dollars are being squandered on many wasteful, unnecessary and poorly managed programs;
NOW, THEREFORE, the undersigned citizen of the United States hereby petitions the Congress to adopt an Amendment to the Constitution of the United States that will: Cut, limit and control Federal spending and the amount of taxes which can be imposed on United States citizens now and in the future.

It's in our hands,
