## 'Fantasticks' Usher In Drama Season

Mr. Robert Moran, drama department director, sought to inject variety into the theatrical season when selecting this year's productions. Keeping with this aim, *The Players*, the Marian College thespian organization, will offer, under Mr. Moran's guidance, six presentations ranging from a whimsical romance to a classical tragedy.

On October 14, the series opens with a revival of *The Fantasticks*, a musical comedy by Tom Jones and Harvey Schmitt. Another musical, *Showboat*, will follow in the spring. Eugene O'Neill's intense character study 'Hughie,' will be the only contemporary straight drama for the year as the other *Players'* enactments will be Moliere's satire of 17th Century French society, *School for Wives*, and the Greek tragedy, *Antigone*.

Innovations in the college playhouse include the use of theater - in - the - round, and three-quarter-round, in addition to the anticipated outdoor presentation of *Antigone*, and the advent of Jack O'Hara's direction of *A Thurber Carnival*.

## Drama, History Begin Series

The Marian College Lecture Series for 1966, beginning September 29, at the college, 3200 Cold Springs Road, promises to be one of the highlights of this school year. Nationally known speakers as well as members of the Marian faculty will lecture on "The New Mathematics," "Music," "The Modern Voice in Drama," "Benchmarks of American Thought," and "The Ecumenical Council in Perspective."

Surveying the significance and accomplishments of Vatican Council II in "The Ecumenical Council in Perspective," from October 20 through April 4 will be the Right Reverend Monsignor George Higgins, Director of The National Catholic Welfare Conference Department of Social Action; Joseph Sittler of the University of Chicago's Divinity School; John Leo, Associate Editor of the *Commonweal*; Sister Mary Luke, Sisters of Loretto, the first American woman auditor at the Council; Rabbi Marc H. Tannenbaum of the American Jewish Committee; and the Very Reverend Alexander Schmemmann, Dean of St. Vladimir's Orthodox Theological Seminary of New York.

Lectures on "The New Mathematics" will be conducted by Sister Florence Marie O.S.F. of the Marian College Mathematics department. The goal of the course is to provide parents with a clearer conception of "modern mathematics" and better enable them to cope with mathematics studied by their children today.

The various forms of music in different cultures and periods will be discussed by Sister Vivian Rose O.S.F., Chairman of the Marian Music Department; Alexander McDonald, Ph.D. Candidate and Marian instructor of music; John E. Gates, M.M., D.M.A., former Professor of music at Butler University and Conductor of the Musical Arts Symphony Orchestra; and Frank Cooper, M.M., Butler University lecturer in Music and Art.

"The Modern Voice in Drama" series exploring the work of modern dramatists from Ibsen to Miller will be conducted entirely by members of the Marian English and Speech Departments. Fea-

# School of Nursing To Open Fall-'68

Officials of Marian College and Saint Vincent's Hospital announced today plans to establish a four-year collegiate nursing program leading to a bachelor of science degree in nursing.

Sister Carlos, D.C., administrator of Saint Vincent's, and Right Reverend Francis J. Reine, president of Marian, disclosed that the nursing program is scheduled to open with the fall semester of 1968. Enrollment in the first class will be limited to forty students.

The baccalaureate program will be operated by Marian College. All courses in the program will be taught by college faculty. Saint Vincent's Hospital will cooperate with the college by providing clinical facilities for the teaching of nursing to the students enrolled in the program. Clinical experience will also be provided at other health agencies in the area.

Sister Marie Doerr, D.C., formerly chairman of the Marillac College department of nursing in St. Louis, has been appointed to the Marian faculty as consultant for the development of the new nursing program. A member of the Daughters of Charity will be appointed chairman at a later date.

The present three-year diploma program of Saint Vincent's School of Nursing will be phased out. Sister Delphine, D.C., director of the nursing school, announced that the last class will be admitted in September 1967.

Sister Mary Karen, O.S.F., academic dean of Marian, remarked that the college has been considering the possibility of establishing a four-year baccalaureate nursing program for many years. In 1965 the Booz, Allen and Hamilton report on nursing resources in the Indianapolis Metropolitan Area recommended a baccalaureate nursing program at Marian and the phasing out of the Saint Vincent's diploma program. This recommendation made realization of the project more urgent. At present there is no Catholic institution offering a baccalaureate nursing program in the state.

Monsignor Reine remarked that inclusion of the nursing program will increase enrollment in many courses. He said that provisions for expansion, especially in the

tured speakers will be Reverend Bernard Head, S.T.L., M.A.; James Goebel, M.A.; Robert Moran, M.A.; Sister Margaret Ann, O.S.F., Ph.D.; Forrest Scarborough, M.A.; and John Darretta, M.A.

"The Benchmarks of American Thought" series features discussions of men, their philosophies, and the influence they have on political, academic and social practices in America. Lecturing will be Robert D. Marcus, Ph.D. Candidate, and member of the Indiana University History Department; Frank Stites, Ph.D. Candidate of the I.U. History Department; and John Darretta, M.A.; William Pedtke, M.A., and William J. Doherty, M.A. of the Marian College faculty.

sciences, are already in the college's ten-year development plan. "Laboratories will have to be built and equipped, but there is sufficient classroom space to accommodate the first class of nursing students in 1968," he said.

Sister Delphine said the baccalaureate program in nursing represents an evolutionary development in nursing.

The American Nurses' Association has, for the past two years, been studying the major trends in nursing especially as these affect patient care. As a result of this study, the Association's first position paper on education for nursing was published in 1965.

In this position paper it is remarked, "The knowledge needed by the nurse practitioner today differs greatly from that needed twenty or even ten years ago. She is now being required to master a complex, growing body of knowledge and to make critical, independent judgments about patients and their care." The American Nurses' Association suggests two levels of nursing, professional and technical nursing in order to meet the greatly increased demands for nursing care.

The Association recommends, "... minimum preparation for beginning professional nursing practice at the present time should be baccalaureate degree education in nursing."

The proposed nursing program at Marian will strive to prepare professional nurses equipped to provide good nursing care to the people of the State of Indiana.

## First Semester Faculty Additions Number Fifteen

As student population increases, so must the teaching faculty. With 21 new instructors, faculty membership has risen to 84 full and part time teachers. Of these, 35 are priests and sisters, while 49 are lay men and women.

The psychology department claims three new members: Mrs. Jean Hanford, Reverend Robert Konstanzer, and Mrs. Kathryn Wagner. Fr. Konstanzer is also assuming the position of Student Personnel Director.

Mr. Vilis Donis, Mrs. Frank Stanton, and Dr. Sidney Steiman have been appointed to the sociology department.

New language instructors in the Spanish and French departments include Miss Antonia R. Alcantara, and Mrs. Kristin Roskoski. Mrs. Valda Nesaule is now a full time German instructor.

In the fields of economics, business administration, and accounting, three new teachers have been appointed. Mr. Thomas W. Miller is a full time instructor of economics and business administration. Mr. Donald Nay, and Mr. E. Michael Marmion are members of the evening teaching staff in accounting and marketing respectively.

Supplementing the education department are Sister Marie Kathleen on Secondary education, and Sister Mary Patrick on elementary education. Sister Laurita, formerly of the education department is now assistant business manager of the college.

Mr. Russell Hargus has assumed a full time position in the philosophy department. Appointed as instructor in the math department is Mr. John M. Mummert. Mr. John L. Lowe, theology, will be offering his services as a full time member of the teaching staff this year.

Other new part time instructors include Mrs. Verna McCallum Gall home economics; and Mr. Charles W. Lindner Jr., government.

Mrs. Phyllis Cooke, and Mr. Dale Lehmer will become familiar faces around Clare Hall and men's dorm. Marian welcomes them as the new residence directors.

Among the new staff members and instructors joining the Marian College faculty this September are:

Seated: Fr. Konstanzer, Mrs. Hanford, Mrs. Nesaule, Sr. Patrick, Sr. Marie Kathleen, Mrs. Roskoski, Miss Alcantara, Mr. Miller, Standing: Mr. Hargus, Mr. Mummert, Mr. Donis, Mr. Phillips, Mr. Purichia, Mr. Armstrong, and Mr. Lowe.

## R. O. T.

### Restore Old Teahouse

The inane misuse of the Japanese gardens on the South Campus is a blatant example of the failure of the college to use its facilities to their fullest extent. This once picturesque spot on campus has nearly fallen to total ruin. The fact that Marian is one of the leading liberal arts colleges in the field of non-Western studies does not seem to comply with this situation. If this site were restored it would prove advantageous to more than one department. The history and non-western study groups would benefit by its classic example of Japanese architecture. Botany classes would have a perfect example of a unique style of horticulture. A restored garden would most assuredly enhance the esthetic beauty of South Campus and at the same time could also be used for receptions and teas given by the school. Famous landscape architect, Mr. Paul Spheenis, found the gardens to be unique in the Indianapolis area. Mr. Spheenis added that this site could be potentially the largest wild flower reserve in the state of Indiana. A noted Tokyo architect praised the structure for its similarity to the authentic Japanese style and lauded its fine location. So impressed, he freely offered his suggestions in the form of a detailed blueprint for the restoration of the garden.

Japanese students on campus have offered their services in the interior redecora-

tion of the pagoda. Men from the dorm have volunteered their services in the restoration of the exterior and the landscaping of the gardens. Why have these pleas been unanswered? Why must Marian let one of its greatest assets go to waste? This facility could not only be a great asset to Marian College academically, but it could also be a cultural asset to the community.

In trying to decide who is responsible for this blunder, it is difficult to decide where the blame lies. There is no clear cut solution. The administration is not totally to blame, for more important things, such as the new library and the men's dorm demand their attention.

Viable student interest seems to be apparent, but the students can not handle the situation alone. Perhaps the cost necessary for the repair of the garden could be jointly shared by the Student Board and the administration.

These plans ARE all feasible for Marian College. A study recently made by the Association of American Colleges stated: "Marian has proved that much can be accomplished within the normal budget of a small college provided that the commitment of key members of the faculty and administration can be enlisted to support the growth of non-Western studies."

Let's hope that we can live up to these expectations.

Years of neglect have taken their toll upon the South Campus Japanese gardens. Cleaning and repairing could revitalize a charming feature of the campus landscape.

## Frosh Stagger From Orientation Bout

"It wasn't merely the fact that we looked like new-comers, trying as we did to find the right classroom numbers, showing up late for appointed classes and looking aghast at our book bill, but then those Gung-Ho Gorilla Sophomores made us more conspicuous by planting on our 'cabezas' those handsome articles of headgear known as beanies (the scourge of every freshman)."

These and many more comments have been typical in the conversation of the latest addition to the school — the Freshman Class. Nevertheless, the Frosh have been good sports and aim

to please. Although some of the newness of college life has worn off, the Freshmen still wonder what indictment they made by answering truthfully those personality test questions. And what about trying to remember all those rules and dorm hours! Don't worry, Frosh, for you will be reminded if rules are not obeyed. Thanks to the Student Board you have been given a great introduction to life at Marian College. Along with them, we sincerely welcome you to the student body with best of luck in the coming school year. Our advice? *Buckle down.*

## Editorial Policy

The editorial policy is the very pulse of a newspaper. Its strength or weakness determines the strength or weakness of an entire publication. The vibrant throb of responsible thought and free expression distinguishes a vital communicative organ from a mere product of paper and print.

Yet the editorial policy of any newspaper is difficult to express in so many words. Basically, the **Phoenix** intends to adhere to the following principles:

1) The expression of a definite viewpoint on a controversial or potentially controversial subject.

It is the aim of the Phoenix to become an intellectual, entertaining and functional publication on campus. To do so it must present matters of student interest, stimulating student consideration of and involvement in these matters. Taking a stand on a controversial issue fosters student delibera-

tion, discussion and decision, necessary elements of any college education.

However, we will not have controversy merely for controversy's sake. The opinions expressed will be personal, for an editorial by its nature is personal, yet the opinions will be responsible and supported by objective arguments.

2) The entertainment of all responsible replies whether they be pro or con.

It is understood that in an intellectual community, there will exist differences of opinion and conflicting views. Therefore, the **Phoenix** staff welcomes and encourages student participation to establish the **Phoenix** as an effective organ for student opinion.

As a college publication, the **Phoenix** will strive, in conjunction with the aims of the college, to inform, to stimulate and to benefit from the student body.

### LETTERS

We are pleased to receive letters to the Editor and consider the submission of these letters as implying permission to print them. All letters must be signed by the author. Letters to the Editor do not necessarily reflect the opinions of the Phoenix or of the college. We reserve the right to edit all letters for convenience sake.

Deadline for the Next Issue is  
October 10, 1966.

## Where The Action Is

Do you want to see more ACTION on Campus? If so, an Inter-club Council Committee has devised a means for you to be where the action is. The opportunity is offered in the form of a new campus club which is divided into three committees.

First, the Liturgical Committee will provide updated liturgical programs on Marian's campus. Through this organ, more meaningful liturgical practices will be initiated to make its celebration more pertinent to MC students.

In order to promote discussion on the questions presently being debated by Church leaders, the Educational Committee will sponsor special programs. These will emphasize inter-faith and intra-faith understanding.

The third group is a community action committee. It will provide a means for meeting community needs through volunteer services. All mission appeals are under its jurisdiction.

An outline of plans for the club have been made by a group of faculty members including Father Konstanzer, Father Smith, Father Head, Sister Norma, and Sister Margaret Ann. The possibility of a lecture series on the changing church as well as one on marriage is being considered.

A constitution for the new organization has been written. Now all that is needed are members.

So be a part of Marion's ACTION group. Join the new MC ACTION club.

## A Man For All Seasons

By Larry Turner

Recently, President Johnson's popularity has been reported on the decline. Here are a few comments offered by MC students on the factors that may have contributed to this loss:

Senior **Paul Forssander** felt that most of his sentiments could not be printed; however, he did point out that LBJ seems to lack a firm policy in the field of economics.

Frosh **Ron Passaglia** volunteered, "the president has lost contact with the youth. He must re-establish communication with our generation."

Contradicting the polls **Tom Davis** felt that LBJ's popularity is not as low as the news media portray and he blamed many of the bad reports on "the panic over inflation and recession."

Soph **John "Glick" Pietripaulo** stated that "LBJ's policy in Viet Nam is too mediocre and he should either step up fighting or pull out."

Junior **Sue Smith** stated that the president's popularity has fallen because he has placed himself above the middle class and ignores them while tending to favor the poor with his War on Poverty."

Although she agrees with the president on Viet Nam, Junior

## Frosh Meet Campus Endure Initiation Week

by Ann Murphy

Would you believe that a Da Vinci hangs in the library? That a representational sculpture of . . . ? stands in front of the Men's Dorm? That every Frosh must locate for himself a certain kissing bridge? Only at Marian!

These were the high points of a groovy little tour conducted for the benefit of we, the uninitiated Frosh, on Sunday, Sept. 18. Our glowing guides were a modern day version of Mutt and Jeff, who must be in training for the Olympic walking team.

After our two hour constitutional we, the class of '70, were feted at a Henry VIII type buffet supper complete with chicken to rip apart with our bare hands.

To wind up the glorious day there was dancing to the romantic strains of the Ear Smashers in the Mixed Lounge. As the day ended we silently sank into the state of exhaustion.

Nor was the situation to improve. Monday, Tuesday, Wednesday, Orientation, Registration, Information. Induction into the Army can't be much different. Lines, lines and more lines. Some brilliant minds calculated that all together we spent over a year's worth of manhours in one line or another.

Then there were tests. "Which one would you rather be, a cowboy or a research chemist?" "How do you feel about kissing people the same age and sex as yourself?" "Do you have any

problems?" One poor soul wandering past me in the hall muttered, "Who am I, where am I, what am I?"

By Wednesday afternoon the administration had finished with us and we were handed into the loving care of the Sophomore class. At a rally Wednesday afternoon they sweetly informed us that they required very little, just complete obedience. In fact, these models of virtue had kindly arranged a series of joyous events with the sole purpose of giving us pleasure. Not only are the Sophomores liars, but also cheats! A case in point was the Frosh-Soph tug of war held Friday, the 23rd. Certain members of the opposition were either boys or some of the Soph girls couldn't stand to show their legs. A certain amount of poetic justice was done when the chain broke on a rather unkosher tricycle at the Le Mans Classic Monday the 26th. However the Freshman Class, being the good sports they are, took all of this in the spirit of fun.

The outcome of the Frosh-Soph softball game follows the Soph's law of relativity: i.e., the Soph are relatively honest in all things that don't involve the Frosh.

This Saturday is the day of reckoning for all obstreperous Freshmen. It is the date of the Beanie Bounce and the grand finale of initiation week.

So friends, I'll see you at the Beanie Bounce—I'll be the one hanging by my thumbs.

by Amelia Poodflap

DEAR AMY,

I'm a boring conversationalist. No matter whom I speak to or what I'm talking about, no one listens or pays any attention. I've tried speech courses and outside reading, but to no avail. Any suggestions as to what I can do?

NO ONE LISTENS

DEAR NO ONE LISTENS,

What you need is a unique quality to your speech, one individual characteristic which will make people sit up and take notice. Have you ever tried lisping? With just the right touch of a lisp, you will attract no end of attention, making everyone else seem all wet.

★★★★

DEAR AMY,

Being a straight A student has presented a difficult problem to me. It seems like I can't study because everyone is always coming to me for private tutoring. Is there any way to end these extra-curricular lectures without hurting anyone's feelings?

3.0

DEAR 3.0,

What you need is a unique quality to your speech, one individual characteristic which will make people get up and leave. Have you ever tried lisping? With just the right touch of a lisp, you can drive people out of their

minds, and believe me, after the first few dousing lectures, you'll have ample time for private study.

★★★★

DEAR AMY,

I feel completely isolated from society, I simply don't belong or fit into any group. Coming to a small college would help, I had thought, but so far it hasn't. Just what does one need to belong?

OUTCAST

DEAR OUTCAST,

What you need is one quality to your speech, one characteristic which you can share in common with others. I'd suggest you start with a small group, with whom you could work toward a common goal. Have you ever tried lisping? I know two people on campus who would share this problem with you, and you could all work together toward a mutual solution.

★★★★

DEAR READERS,

My column will appear in the Phoenix thith year as a thpecial thtudent thervice. I will devote mythelf entirely to working out tholutions which will apply to your own individual problems, for I feel each individual has his own unique qualities, characteristics, and problems which require individual answers. Tho *feel free* to thend your problems to me, but don't expect me to do it for free—thend money.

## Vista Visits

Mary Grace Concannon of VISTA, the volunteer corps of the War on Poverty headed by Miss Concannon, VISTA Area Field Representative, is at Marian College today to outline the role college students can play in the War on Poverty as VISTA Volunteers. She is available to answer questions in the auditorium lobby.

In response to the War on Poverty, thousands of college students have joined VISTA. VISTA Volunteers are serving in urban slums, in rural areas, on Indian Reservations with migrant laborers and in Job Corps Centers in a variety of programs including mental health and literacy programs.

VISTA Volunteers may express a preference as to where they wish to serve and the type of assignments they desire. The Volunteers train for six weeks. They receive their living expenses plus \$50 a month during their year of service.

## Frosh Lose Softball Not Beanies

Bowing their beanies once again during initiation week to the predominantly blood-thirsty Sophomore class, the freshmen softball squad was pounded by the 22 hit attack of the spirited Wildcats team and went down to a humiliating 11-0 defeat. Wednesday's game pointed out for the third time in seven days the athletic supremacy of the Secondyearman over the Frosh.

Although the underclassmen displayed a great amount of untapped ability, they couldn't overcome the experience in team play of the Cats.

The fireworks began early in the contest when the Wildcats, after setting the frosh team down in order, exploded with four runs in their half of the first. Short-stop Larry Hornbach lined a shot between short and third to start the rally. Then Jack Adams smashed the next pitch down the third base line and legged it to second base as Hornbach sped home with the throw to second. Consecutive singles by Terry Lute, John Hendricks, and Kelly Powell netted the Cats three more runs before the frosh were able to retire Dave McIntyre on a deep fly to the left.

After the underclassmen were unable to score in the second, the Wildcats again had the Freshmen scrambling. O. Graf led off the inning with a single and John Takach sent him home on a hard double down the third base line. Then the nervous neophytes dropped John Wisneski's infield fly and the Cats had runners on

first and second. Terry Meyers' double to left center scored both runners as the Freshmen's hopes wilted. The Sophomores added a single run in the sixth and three in the eighth to run the final count to 11-0.

In the second half of the double header, the Sophs offered to wear beanies for the remainder of initiation week if the underclassmen could defeat the Cats whose consecutive win streak reached twenty-one games after their first victory. The Freshmen rallied early for two runs on Dave Hackman's home run with one on. But the underclassmen again faltered and the Wildcats streaked ahead in the second inning and went on to an 8-3 victory.

## Holtel Pedals Winning Trike

Another MC first rocked the campi Monday, September 26. The Le Mons Tricycle Race, sponsored by the sophomore class in conjunction with freshman initiation, was held on the Clare Hall "strip".

As was generally expected, the sophs displayed an unusual, perhaps even unethical entry comparable to the annual dinosaur of the "500", the Novi. The miracle machine looked rather suspiciously like a bicycle. However, the entrants reminded, it filled all the requirements of a trike. And, thanks to a slightly ineffectual third wheel, was accepted by the unbiased sophomore judges.

Obviously, the soph entry took an early lead, but after completing but one lap, acquired an extreme handicap with the loss of its chain. The neophytes, seizing the opportunity, led until the final lap, when soph ace Jack Holtel, overtaking the frosh "engine", roared across the finish line. Jack's superior ability on the asphalt, awarding sweet victory to the second year men has also forced the class of '70 to continue wearing beanies until this evening's annual Beanie Bounce.

## Runners Await Initial Meet

Coach Larry Bridges is looking forward to Marian's second season of varsity cross-country with the return of some experienced runners. Despite the loss of Marty Liddy and George Hynek, the one because of graduation and the other for personal reasons, Coach Bridges is depending on Captain John O'Kane, Chuck Smith, Dave Walker, Jeff McQueen, and Jim Revaloe to handle most of the duties. For his sixth man, Mr. Bridges hopes to see Jerry Sumpter, a freshman, come through after he too gains some experience. Others that will run this year are: Frank Montgomery, Mike Mealy, and Bill Feller.

Students will have the opportunity to see more of the team since the majority of meets are to be run at Riverside Golf Course.

Sept. 28—Rose Poly	Riverside

The Wildcats massacre the Frosh.

# More Sports Equipment Needed To Maintain Athletic Optimism

Are we dreaming here at Marian College when we say that our basketball teams will win twenty games, that our baseball team will play in the NAIA playoffs, and that some day our track and cross-country teams will be "Little State" champs.

Those that participate in these athletic contests say that these things will happen, but everyone else has a nice laugh. In setting these not so high goals the only thing that we seem to be lacking is interest—interest on the part of the students, administration,

faculty, and yes even the alumni of Marian College.

Of course, we are and were here to get an education, an athletic program has a great value to any institution.

All the "College Night Publicity" in the United States will not sell a school. Academics, spirit, and yes, a well rounded athletic program will. The need is here for Marian College to grow into an athletic power to match its academic rating. It presents a challenge to all concerned.

Talk of the future is fine for those who live in the future, but Marian College may remain static, unless its future involves the present. Competition from other Indianapolis Colleges calls for the upkeep and building of athletic facilities (example—baseball diamond).

The challenge is new and will be met first by the basketball teams this year. Twenty wins is our goal, but the help of everyone is needed.

## High School Journalists Hosted At Marion Workshop

More than 400 high school journalists accompanied by their advisors are expected on the Marian Campus Saturday, (Oct. 1), for a day-long journalism workshop.

Sponsored jointly by the Detroit Student Press Association, the University of Detroit journalism department, and the Ford Motor Company, the workshop is scheduled to open at 9:15 a.m. in the auditorium with a talk by veteran UPI reporter Hortense Myers.

Following the talk, the group will divide to attend special sessions in news, feature, sports and editorial writing,

layout, editing, photo editing and advertising.

There will be a special session for advisors presented by Miss Anne White, newspaper advisor at Fort Wayne Southside High School.

Faculty and students of the University of Detroit journalism department will staff the various training sessions.

In existence for nine years, the DSPA has conducted workshops for more than 60,000 high school journalists, and also offers two-week newspaper and yearbook workshops during the summer on the University of Detroit campus.
