As the intramural football season heads into the home stretch this Sunday, one team from each league will be attemnting to keep its unbeaten string alive.

For the most part last Sunday's action was defense-minded and, as expected, nroduced a sole possessor of first place in League \# 1. The Miracles used an alert defense, which intercented three passes, and 45 yd. scoring pass from Ellinger to Scanlon to defeat Herm's a Wom 6-0 and thereby, virtual ly clinch the League \# 1 title. The Miracles stingy defense has seen them through the season. This was the fourth consecutive week they were unscored upon.

Both the Guzz Bombs and the Wild Bunch used a pesky pass rush to hold the opposition's scoring to a minimum. The Wild Bunch final y slipped by 7-0 with the games only score coming on a Tyrrell to Smith pass play covering 35 yds.

In a game which turned out to be much closer than expected, Degenerates II beat a fired-up Intramural Football Team 7-0. The games only tally occurred when Grier threw to Dal ton for a 45 yd. touchdown.

The Vice Lord proved to be too much for Just for Kicks to handle as they rambled to a 20-6 win. Ferrel was again the stand-out for Vice Lord as he threw for two TD nasses.

In the last contest of the day, Frizzled Chicken forfeited its fourth game to the Mother Truckers.

If you'll allow me a little editorializing here, I'd like to poin' some'hing out. While giving the referees a itard time from the sideline is as much anart of the game as the forvard pass I feel it is unfair to hold them entirely responsible for failure to position the ball correctly on first downs as many of the players and fans did all afternoon last Sunday. The fact is that the playing field was sadly lacking in chalk marks and its extremely difficult to line up the ball with the first down chains when there are no yard stripes to go by. So if you want to complain, talk to people in work-study who handle that sort of thing and quit yelling at the ref for something he can't help.

This Sunday will be the lastweek of regular action. Just for Kicks will be victorious over the Mother Truckers. The Vice Lord - Herm's a Worm contest will be close but I think the Lords will win. The Gods of Hellfire jill go undefeated as they roll over the Degenerates II and the Wild Bunch will wi nd up their season with a victory over the IMFT.

FOR THE LACK OF
The CARBON i.s what the students make it. We depend on the students for contributions and lately there haven't been too many.

At the beginning of the school year, Dave and I had hopes of making this year's CARBON the bridge over the communication gan by voicing all student, faculty, and administrations views and opinions, no matter what they might be or what they concern. The fact is, however, that we have been having considerable difficulty in obtaining material each week. This is indeed baffling to me, for I was under the impression that this was an institution of higher learning. That learning should include a few things about life too. Is there so much anathy here?

I refuse to believe that the entire Marian College "community" is so completely removed from the outside world and what's hapnening there as well as what's hannening here. Last year, I wrote an editorial stating that we were losing a lot of concerned students and faculty members to other institutions because of the conditions here at that time. I said this thinking that, some of the leadership ability remained and that we might even gain some with the coming school year. However, up to this point, I have been thoroughly disappointed.

I don't know whether it is fear to say what we think because of the "consequences" (this alone is a reason to be concerned), or whether those people who have something to say have come to the conclusion that conditions here are so pathetic that few people will hear (cont. page 3, col. 1)

or understand what is being said．Whatever the reason may be，I would like to know that there are some neople here who care about
what＇s hanvening to them，people who do have an opinion about something besides their own ＂private little world．＂We would like to know that the minds of the people here are used for purnoses other than memorizing what is written in text books．

The CARBON is the realization of free speech．We have taken it unon ourselves to give you a chance to say whatever is on your mind，to be heard on a large scale，yet you are not taking advantage of that chance．I would like to be proven wrong and only you can do that．This paper i．s for you．Don＇t waste a good thing．

## AS IT IS

Things are really dull：There＇s nothing to con structively complain about．This deadness grates against my nature．I feel so．．．so．．．un－ fulfilled．Academe has drained all life and fire out of me．This lack of fire，the state of firelessness，I suppose，in this lack of environment，i．e．，Marian，leaves me lacking． It makes for a dull world．

It＇s all a facist Right Wing Dlot．Through Right Wing sloganeering and through Intro．to Logic 101，whatever sense of outrage I once could muster is no longer musterable．＂Love i．t or Leave it＂sums the whole bloody mess up． This，to me，is a Right Wing slogan if I ever heard one．Put this slogan to the grim test of Logic 101 and you have the first principle， that indoubitable truth，the self－evident fact that real starting point of life on a thriving Mid－Western college campus．This axiom I base my action on．That is，inaction．

Can＇t get hairy about nothin＇no more．Parking tickès，batty nuns，philosophy profs．，riots， shootings，acid indigestion，Hydrogen bombs， nothing absolutely nothing is really hairy， cool，or up－tight－out－of－sight．

The whole thing is too damn big．It＇s a plot． I am undermined．Academe and the plot．The pope and the pill．It＇s just too much．＂Love it or Leave it．＂I Love It and Jesus Saves．

Things are really，really，dull．One would be almost inclined to take up a book．All the fire is gone．Can＇t really be helped．Just gotta get some sleep．

## DEAR D．J．

Dear D．J．： I＇m a coed here at Marian and I have never before had a date．Now，all of a sudden，I＇ve got six dates－－all for the same night（Sadie Hawkins）．You see，in the past， there were only two occasions when I almost had a date．Since I went to an all－girl high schoc I har the onmortunity as a Junior to ask a guy to the Prom．Well，the guy I finally got to go with me（the 8th one I asked）came down with （continued next column）

THE CARBON solicits contributions from any Marian student，faculty，or administrator。 Contributions of any nature are accented， and all will be printed．Letters should be addressed to THE CARBON and left in the mail room，basement of Ad．Bldg．Or，they may be given to Elaine Ransom or Dave Soots．Don＇t forget：Deadline is 6：00 p．m．Thursday．

whooning cough at the last minute．Then，when I was a Senior，I got a date to the Prom that year（llth guy I asked）．As you might exnect， he also came down with some illness at the last minute－－the Plague，I think he said． Needless to say，these two incidents did much to discourage any notions I might have had for an active social life at college．

When，however，I heard about this Sadis Hawkins Dance，I just couldn＇t resist the tomp．－ tation to possibly get a date．Well，I fig－ ured it would probably take a while to get a guy to go，so 1 started hustling in the reg－ istration lines，back in September．Now，I don＇t think I can be blamed for starting off with a negative attitude，but it wasn＇t until I finished asking the sixth guy that I real－ ized that the previous five had also said VES． I hardly knew what a YES was．I guess I just presumed they＇d say $\overline{\mathrm{NO}}$ ，and made myself hear a M ．

So you can see my problem．What＇s really getting me worried is that they all look to be in good health，and have mentioned nothing of feeeling ill．They don＇t even realize that they all have the same girl for a date．I＇ll do whatever you say，D．J．，but if you toll me to get sick I think it will probably destroy me completely．signed，Not Feeling Well Already

Dear Not：IIm sorry，my dear child，but I＇m afraid sickness is the only hope for your situation．And，not just a mild sickness． Your problem calls for sleeping pill over－dose， rat poison，or Perc food．It＇s the only out． Good luck，honeyo DoJ．
gay，there lived a civilization of great beauty and warmth．There were no uglies－－just han－ piness and tranquility．They lived on in peace together until one day The Great Pumpkin appeared on the scene．Suddenly their way of life changed drastically．The Great Pumpkin brought with him a furor－ma furor of disen－ chantment，distrust，injustice，and now，ugly． Happiness and Tranquility were destroyed； they died of a broken essence．But they were replaced by Prosperity and Growth．Who，in turn，begat Publicity and Image．And it was ugly and it was gay．This new civiliza－ tion，it went on－But even the off－spring of the Great Pumokin were not happy and they were not tranquil．For The Great Pumpkin had destroyed these．And it is written that Zebrowski，even，cannot build as much as a fire．So even seeds of The Great Pumnkin began to cry out．．．for they had heard and seen enough．And there were only words－－more words－－unintelligible words－－words from The Great Pumpkin－－words like＂take it on faith．＂ And the Holy See was now in turmoil．．． $D_{0} I_{0} S$ 。
