Visitation hours extended

Don't be a turkey!!!

by Holly Criss

Tension was in the air and sweaty palms were evident on November 12, in the second floor meeting room of Marian Hall, as the proposal for the extension of visitation hours was presented to College Council.

Volume 9, Number 9

Student Affairs Representative, Mary Davis, and MCSA President, Jim Meer aided in the persuading of the committee to vote in favor for the proposal. The vote passed unanimously with no opposition and no abstentions. "I thought that the questions would be more detailed than they were; it was easier than we expected," said Mary Davis. Something that students need to be aware of is that the governing board is present for the students. "If the students want something then they should come to us, that is what we are here for," comments Davis.

One issue that was questioned a numerous amount of times was consideration hours--what they would be changed to and what about those students who were opposed to the change altogether.

The change of visitation hours will go into effect beginning on December 1, 1991. The new hours are as follows:

Sunday-Thursday 12:00 p.m.-12:00 a.m. Friday-Saturday

Blood drive was successful

Marian experienced its around highest turnout ever on the November 5 Blood Drive, with a total of 80 units donated.

Rob Hamilton, who coordinated the drive, reported that eight people were deferred due to medical reasons.

The high turnout, up approximately 20 units from last year, was a direct result of Hamilton's fervent recruiting efforts. Aside from putting up numerous signs

12:00 p.m.- 2:00 a.m. Consideration hours will also be extended, their new times will be 12:00 p.m.-7:00 a.m. but may be amended upon the discretion of each wing and floor of the residence halls.

Director of Residence Life, Cathy Bickel, was in favor of the proposal. Her only request was that the faculty and staff had time to be warned before the change went into effect.

MCSA President Jim Meer commented, "I would like to thank those students who were at the College Council meeting. It showed that this was something the students felt needed to be changed."

All of this could not have been accomplished without the hard work and dedication of the students. "The people who worked hard on this proposal for example Mary Davis and the ad hoc visitation committee did a great job!" exclaims Jim Meer. "I also thank the members of College Council for supporting the new visitation proposal."

According to the Code of Student Rights and Responsibilities, visitation hours are reviewed each year. One year from now the hours will be reviewed and hopefully, if the students use and do not abuse this privilege, they should remain in effect indefi-

campus, Hamilton personally asked many people to give. "I asked a lot of people two or three times," he said.

The Central Indiana Regional Blood Center distributes the donated blood to one of the 42 hospitals of central Indi-

Ed Stryker, Director of Donor Recruitment for the CIRBC, said that, out (continued on pg. 2)

Metro cuts back

For those Marian students who ride Metro, be prepared for some upcoming changes in their express routes that may be implemented in January of 1992.

As part of a plan to save \$1.1 million, Metro wants to scrap most of their express routes, excluding three: Route 40/Chapel Hill, Route 47/Harcourt, and Route 48/Mitthoefer.

Also, Route 47 would lose its last trip of the day from Downtown. Routes 40 and 48 each would be reduced to two morning trips and two afternoon trips. Route 45/ Post Road Express would be combined with Route 48.

Metro is looking at a \$1.5 million deficit in 1992 because of rising fuel prices, high maintenance costs and fewer riders.

Although Metro received a tax increase of 2 cents per \$100 of assessed property value, they will still be managing on a budget \$840,000 less than this year's.

In order not to lose any more passengers by raising fares, Metro has proposed cutting most express routes and selling their six trolleys, two of which have been driven by 500-Mile drivers each May in a promotional race around the Circle.

A public hearing was held Thursday, November 14, at 5 p.m., where city officials could answer questions.

(Data compiled from the Indianapolis Star, Nov. 13, Vol. 89)

Breakdown of student population

by Karen Murphy

There has been plenty of talk about Marian being one family, but just who is a part of this family? As of September 15, this is how the breakdown of students

There are 1,263 students currently enrolled at Marian. Of these students, 865 are full-time and 398 are part-time. That means almost 1/3 of Marian's students are part-time. The number of part-time students has increased significantly (3.6%), which reflects a national trend of more part-time students than fulltime.

Women are an abundant commodity here at Marian, controlling 70.8% of the student population, while men own just 29.2%. In simpler terms, there are 2.7 women for every one man. That's 894 women; 369 men.

Jim McKean, Director of Management Information, indicated that "The college would really like to see a closer male/female ratio." Heattributed the imbalance to Marian's large Nursing and Education departments, and to another national trend that more women are attending college than men.

The ethnic breakdown is similar to the unbalanced male/female ratio. Caucasions make up 84.7% of total student population. The black (African American) population makes up for 12.2%. There are a total of 19 black male students and 135 black female students. At the same time, there are 339 white males and 731 white females. Marian's total minority population is 15.2%. This percentage is among the highest of private colleges. African Americans own 12.2%; Asians, 1.2%; Hispanic 1%; and Indian 0.8%.

Commuters make up almost 61% of the total population with 769 students. Residents have 39% with 494 students--this includes the 30 ELS students. Of the 494 resident students, 305 are female and 189 are male.

Sixty-seven percent of all Marian students receive

some sort of financial aid. The average family income for Marian's traditional students (under the age of 24) is \$39,000/yr; while the average for non-traditional students is \$21,000/yr. Director of Financial Aid, John Shelton, indicated that this was low for private colleges, which emphasizes the dependency upon financial aid.

There are 234 students currently on academic scholarships and 92 students with athletic scholarships, while some students receive both. In 1990-91, however, only 56 athletic scholarships were given out.

The 1991-92 school year saw 436 new students enrolled, compared to 386 new students in 90-91. This makes for 13% growth. Jim McKean said "We think the future holds real growth."

So there it is, a profile of the student body--the good, the bad, the ugly. This is the internal structure of Marian College.

Marian students help brighten children's Christmas by Karen Murphy

Marian is into the spirit of time. giving. A few weeks ago, students and faculty opened their veins to give blood, and last week they opened their hearts to make some needy children smile at Christmas

Clare, Doyle, and St. Francis Halls joined forces in sponsoring a Giving Tree at Marian. The tree was decorated with the names of 79 children who need our help

to have the kind of Christmas kids deserve. What students did was undecorate it, which was completed Friday, November 15.

Natalie was the coordinator of the project.

New entertainment at Alverna

by Krissy Abel

"Cowabunga, Man!"

Yes, that's the Bartman, and he's making an appearance in Marian College's own Alverna Student Center. He, along with Jake, Duke, Mario and Tyson have decided to hang out at the center.

Yea, that's the ticket.

Okay, I lied. But, hey, we've got some new pinball games, video games, pool tables, fooseball table, and a jammin' jukebox.

The two pinball games are Space Shuttle by Williams, and The Simpsons by DataEast. That's right, underachieve all you want as you listen to "Momma Said Knock You Out" by L. L. Cool J.

Indy Amusements also supplied the Alverna Center with the video games Escape from the Planet of the Robot Monsters by

Atari, OutRun by Sega, and Crowns Golf in Hawaii by Sega/KitKorp. The Escape video game is way cool. Planet X is taken over by evil reptilians and they have enslaved humans. Jake and Duke, the heros, have to free the hostages. And Sega's OutRun lets you drive like you've always wanted to--but watch out for Devil's Canyon.

The best of the video games is Nintendo's PlayChoice-10. It allows you to pick from 10 games by their company, including: SuperMario Bros., Contra, Tyson's Punch-Out!!, and Pro-Wrestling.

The jukebox has a wide selection, from Phil Collins and Prince to the Righteous Brothers and George Strait. (Okay, so Frank Sinatra's on it too. You can handle that.)

Letter

I have one negative comment to make on Homecoming.

Why didn't the commuters have a chance to order a T-shirt? I heard that the "on-campus" students ordered them from the signup sheets in the cafeteria. What if the commuters don't eat in the cafeteria? How would we, the commuters, have signed up? I know, some commuters may not have wanted one, but what about the rest of

There are signs about everything else on the walls of Marian Hall, why not signup sheets for Homecoming T-shirts???

Name withheld

P.S.

I'm a member of the Booster Club and we (the members of the club) decided not to order Tshirts because it was already too late by the time we decided to.

support of the Marian com-risk, and maybe others. munity.

Guest editorial

Earvin "Magic" Johnson's announcement about his HIV virus invection caused many people to examine their views of AIDS and AIDS-carriers.

The shocking reality that a superstar could become a statistic brings the reality of AIDS down to earth: nearly 800,000 to 1.3 million people are infected with the HIV virus.

Journalists, entertainers, sports columnists, and America itself have commended Johnson for his courageous announcement that everyone assumes will change the course of the battle against AIDS discrimination.

Or will it? Johnson, who had long been held as an American hero, would have been surrounded by supporters no matter what disease struck, and that disease would have been thrust into the limelight for more scrutiny, whether it was rare or an epidemic.

That, in itself, means that Johnson should be commended for his outspoken attitude about his disease. Because of him, AIDS will be examined thoroughly. Yet, I hesitate to say that he will change the way AIDScarriers are viewed.

Intravenous drug use, homosexual behavior, and careless sexual relationships are the three main of the blood drives on No- reasons for AIDS, and they vember 5, Marian had the are the three main reasons second highest number do- why AIDS-carriers have nated for the day, a unit short been discriminated against. A person who is active in Stryker expressed appre- one of these activities has ciation for the interest and put his or her own self at

Since the public knows that these activities cause AIDS, what will the public think when someone announces that he/she has AIDS?

Will every noble sentiment that may have occurred because of Magic Johnson stay with them, or will they disappear, leaving thoughts like "druggie", "fag", and "slut" behind?

This editorial is not meant to hinder the fight against AIDS. Surely, Magic Johnson will teach responsible, safe behavior to students and people around the country, and hopefully, more support will result in a cure or vaccination for AIDS. But, let's not get caught up in noble sentiment and self-praise for supporting Magic or other AIDS-carriers. We can talk and commend all we want, but I believe our prejudice still exists against an AIDScarriers, because, frankly speaking, it's a scary disease; a scary, deadly disease that is fast growing into a national crisis.

Marian's basketball team

by Karen Murphy

John Grimes is entering his 16th season as coach of the Marian College Men's Basketball Team. The Knights are coming off of a 14-13 season, which also saw them compile a 6-4 Mid Central Conference record. The 1990-91 season was the ninth consecutive winning campaign that Marian College has enjoyed.

The Knights will have to replace Ed Ertel, Rob Kirchoff, and John Jones, all lost to graduation. Coach Grimes believes that their role as leaders will be missed.

Anthony Hoereth (Jr., Indianapolis, Roncalli) will be looked on for the leadership role along with a talented group of returning players for the Knights. Hoereth averaged 8.1 points per game and was

second leading rebounder a year ago. Also returning will be sophomores Chad Ray (Lebanon, 6.3 points); Matt Pinnick (Franklin, 12 points); Marcus McCormick (N. Montgomery, 3.4 points); Ray Peters (New Haven, 6-7 points); and Darwin Shurig (Waldron, 1.9 points). Another leader that coach Grimes will look to is sophomore Billy Woods (Indianapolis Scecina), who returns this year to varsity competition. Coach Grimes sees Woods as strengthen-

athletic skills. Coach Grimes views maturity and increased physical development as key assets of this returning group of players. "They all had a lot of playing time at the varsity level and have got-

ing the inside game with his

ten much stronger physically," notes coach Grimes.

Newcomers this season consist of Jason Lucas and Jason Patterson, both off the Brownsburg High School team that advanced to the Semi-State, Chad Wade (Loogootee), Gary Duvall (Noblesville), and Dustin Howard (Salem). The freshman will be asked to contribute in the area of perimeter scoring and providing

Coach Grimes predicts the MCC will be very balanced this year with no one dominating team. He sees any of the teams as being capable of stepping forward during the conference season. He also hopes to see more alumni support at all athletic events to see the total improvement of the entire athletic program.

Marian tennis earns respect in district

by Sheila Leighton

So how did tennis go this year? Just ask Tony Natali; he would be happy to talk about it. As a matter of fact, he would probably say that he is glad to be here--and you better believe Marian is thankful to have him around. After all, the second year coach was able to lead Marian tennis to its best finish in years with a 7-5 record for the women, their best finish ever, and a 6-4 record for the men. That's a tough act to follow. However, Natali is sure the teams can only build on this year's success.

According to Natali, the effort from both teams was pretty satisfying with each team accomplishing most of its goals. Natali also noted major improvements in the district and MCC Tournament performance of his players.

In the NAIA District 21 of Marian Men's Tennis earned 7th place out of 13 teams and 4th in the MCC. Marian's Women's Tennis also made its mark finishing 3rd out of 13 teams and 2nd in the MCC.

Really, Natali has every reason to be pleased--he only loses three seniors: Mike Kenny, Jodi Perkins, and Betsy Uhl. So we will see the nucleus of the teams remain intact, which should be promising for

1992.

Some outstanding individual contributions include:

Greg Boyd, a freshman

from DeKalb finished 7-2 at #3 singles. Mike Kenny, the team's only senior from Chatard of Indianapolis finished 5-4 at #5 singles. Kwin Raymer, a freshman from Brownstown finished 7-2 at #6 singles.

Freshman Lee Phillips from Greenfield and junior Jamie Snyder from Crawfordsville joined up at #2 doubles with a 6-3 record.

Freshmen Scott Pettis of DeKalb and Walt Smithers of Ben Davis in Indianapolis finished at 6-3 at #3 doubles. Sara Masters of Richmond finished 9-3 at #1 singles.

Jill Thompson a freshman out of Washington Catholic finished 6-4 at #4 singles.

Jodi Perkins, a senior from Ft. Wayne Harding finished 9-3 at #5 singles. Senior Betsy Uhl finished at #6 singles with a 8-4 record.

Freshmen Jennifer Thornburg out of Anderson Highland and Diane Whitney from Jennings County joined up for a 9-2 finish at #2 doubles. Jodi Perkins and Freshman Cindy Trefz from Southmont paired up to finish 4-2 at #3 doubles.

Knights lose season opener

by Steve Tweddell

For the first time in five Knights with 11 points and was Marian's lack of execution on offense that eventually did the Knights

As a team, Marian shot 18 of 42 (43%) from the floor, 2 of 6 from three point range (666%), 11 of 13 (85%) from the free throw line to go along with 18 turnovers, seven assists, and 32 rebounds. Individually, Chad Ray paced the

years, Marian lost their 5 rebounds. Matt Pinick season opening basketball added 10 points and three game, 66-53, to St. Francis assists and Jason Lucas last Saturday. Despite scored 7 points. Also congood effort and defense, it tributing to the team's efwere Marcus fort McCormick with 7 points, Ray Peters with 6 points, Jeremy Vogt with 5 points, Billy Woods with 4 points, and Darwin Shurig with 3 points.

> The Knights will play Indiana University-Kokomo Friday at Franklin College in the Blue and Gold Classic before returning home for the first time this season to play Wisconsin Lutheran at 3:00 p.m.

Polly Procrastinator

by Holly Criss

Here we go again! I wish that everyone could get their acts straightened out. How many know the meaning of the word procrastinate? Webster's defines it as "habitually putting something off to another date or time." Admit it, there is not one of us who is not just a little bit of a procrastinator. I will admit it in no time flat. If it can wait even a half of a second, then it will. I, like many others, will put anything off until the last possible minute.

you have procrastinated because, after all, it is human nature. Now may I introduce to you the newest character in the Carbon, Polly Procrastinator.

Polly would like to intro-, what is?

(continued from pg. 1)

Each ornament contained the name, grade, and size of each student. The gradeschool children Marian had were from St. Michael's school, which is located on West 30th street just a few blocks from Marian. Students who took ornaments promised to buy an article of clothing and a toy. (No, you don't have to be fat and jolly with a big white beard!)

There will be a Christmas party for those who buy gifts and the kids they buy for. duce herself, but she feels that it can wait until the next issue. Polly is now in the process of putting off what should have been done last week for class. There are, however; many things that Polly will not put off:

Beverly Hills 90210, Knots Landing, and the Arsenio Hall Show are just a few of these things. Polly will not put off more important things like, who called that she did not get to talk to and when is mom going to be off of the phone so that she Stand up and admit that may catch up on the latest gossip.

> Polly has been forewarned and so has everyone else that procrastinating is neither intelligent nor healthy, but then again,

There will be refreshments, games, Christmas carols, and gift-giving (hopefully from Santa or his elves). It should be a lot of fun, and the students will get the chance to meet that little boy or girl whose Christmas they have made brighter.

Natalie Cochran is really excited about it. She thinks that it'll be good for both sides. "I think it's really important for students to see these needy children
