This isn＇t the usual thing－to review a show imnediately after its viewing，I mear， the segments of a musical usually have tc settle，buzz my brain，repeat the refrain to my ears，solidify，break apart and fall back together again after 4 aom．when I arise and rough the copy for next week＇s CARBON．I can＇t help this．The show I just saw left me no alternative；I must recommend，comand my loyal readers NON to see＂Player asuenus．．＂ To say more might detract from the stunning performance of two late－comers Super＊Stars． They＇re＂sleepers＂，you＇li see．There is only one more performarce，Priday night，May 23，1969 at 8：00 pom。

## Reveur Anon

Why don＇t people like us？Wo one writes us letters．Student Board won＇t investigate us． The nuns don＇t even throw us on the floor and step on us．Why，oh，why？What did we ever do to be the brunt of such apatiny？Have you all becone so liberal？But you think we＇re going to remain so passive。 Not on your life！ After all，this is MARIAN COLLEGE．We＇ll rrite our own letters．So there．．．so here．．．

## Dear Daitiors：

Since this is the last（tralk God）issue of the orer－－onular and vibrating CARBON，I wout li：to publicly sign off and bid adieu to wy tiso editors，my two work－conscious， struggling，mature editors who have clearly shown to me，and the rest of the staff，the time，energy and dedication it takes to pub－ lish such a powerful piece of literature as the GARSON．Men，the experience will never be forgotters．I＇ve learned so much from working with you，side by side．The joys and sorrows we＇ve shared will last the days of my life． Such zeal I＇ve never seen before－nor hope to again！Peace．

Dear Eenevolent Other Editor of the Unofficial and Very Casual Pseudo－Newspaper of Editorial Comment on all kinds of Crap：

During the past few months you have steered the helm of the Good Ship CARBON．You have given it definite direction－mdownhill．You＇re always so nastyo Why Mr．Co－Editor are you like that？Sure there＇s a war but flowers are blooning，as you pointed out in one of your future articles．Pastly，your too freaky． Look at your hair．What a wire！How can you be patriotic and truthful with wire hair？In conclusive，your brain＇s short circuited． What else can I say？I hate you．You don＇t even flush the john．And what about all those things you say that we can＇t print？Thanks a brick．How can we fill four pages if you keep up that kind of stuff？You gutter garbler． And always talking about those colored people． You know they＇re really just lazy。 Ask any $H_{\text {oosier．Again，I hate you．This is a defi－}}$ nite pointed which must be put across or be－ side on somethinge You＇re nothing but an out－

Dear ComEditor
Dear Co（mnie）－Editor：
This is it．Goodbye．Now that our firsi semester is over you can shave your beard and let the world know who you are or what you are．It＇s been a lot of work，John，trying to keep the paper above ground；you gravitate to a low level of absurdity and you tried to take the paper with you．I diAn＇t mind the suggeso tion of advertising the midnight Masses but when you made me go it was too much．I know you didn＇t like my editorial on dating，but how rnme you asked me out that weekend？Shape up，John，you can＇t run around the rest of your unnatural life and see everything through a multi－colored prismatic brain．Another item I＇ve been meaning to talk to you about is youn breath．Phew－min the evenings when you belch－－ Phew－－no wonder our typist brought you a bottle of Scope。 Another item－mthat administration policy of support concerning bras－－come on， John，that doesn＇t apply to everyone and especi－ ally you．And remember that night you went barefoot and had that pressed rat on a leash with you－－well，I＇ve developed itchy scaling feet and I don＇t like it。 Just a little per－ sonal hygiene can go a long way．If notwing else，how about two seconds of spray in tire morning？Once you clean your body I＇ll mention your mind．In a much more simple letter so you can understand it。

## UPBEAT LIVES

To date，UpBeat funds have reached $\$ 2500$ ． The majority of these funds have been raised on campus．The CARBON would like to consiat－ vilate the MARIAN community for its nagnj ficent nffort to kenn this program alive．Th future of UpBeat looks bright．

SOREEN BREAK THROUGH－TVEFVEODY LOVES A TLO．
I hove it＇s not a film break through bem cause they take hours to fixo If the serven breaks through，we can alvays show it on the wall or the ceiling if everybody＇s tired． John OsKane，senior film editor，camerraan， producer and former basement movie star hin－ self，promises no problems．The movie shonid prove to be a success and in it is，the 112 have the film coated so the lates won＇s late； besides，once you＇ve seen it and have pais
75 those multi－color grand opening plastic gas station flags will be renoved from the auditoriun entrance，and Jokane will be gooc on location again．It＇s a small price to 2 ay in order to have him behind the camera once more．
