## THE MIXED LOUNGE IS OPEN, HURRAH, HURRAH!

All of Marian sat back and waitedsome with quiet anticipation, others with dessentious mummblings. During this time the Student Board was silently working to carry out their proposed plan. In spite of what most people thought, the mixed lounge actually did remain closed for nearly two full weeks. This is commendable, the CARBON feels.

Now we can tell you that action has been taken. The Student Board has now seen fit to re-open the student haven, much to the delight of all of the Marian kiddies. We now must insert one word of warning. Let's try to make sure that this doesn't happen again! We must respect the use of our lounge-it's use is a privilege, so let's not forget it. We are happy to report that some students have displayed a little initiative already by virtue of their clean-up activities. We hope that others will follow the example. Thieves 'Carnival

Those who missed that wonderful farce comedy last week-end have another chance to spend an inexpensive laugh filled evening. This Saturday night there will be a special command performance of Thieves' Carnival at the same nominal rates. Curtain is at 8:00 P.M. Those who saw it once can come again too!

Good luck to all the Third Order of St. Francis conventioneers this weekend! Remember the public is invited.

Since everything has returned to "normal", we of the CARDEN have made two interesting observations: 1) the Perc is now catching up on its orders (they're making milk shakes today that were ordered two weeks ago), and 2) there don't seem to be any more bridge games in the library! J.D.M.

## GOOD LUCK TO MARIAN'S GREATLST TEAM

One last comment -

Everyone had gathered for the big event Each person in the hall throbbed with content

This was the day eagerly awaited Much too long it had been gated Then suddenly a hush enveloped them all Quiet rang the length of the hall Every eye turned down the way To behold the savior of their day They watched as he walked up the hall He opened the door and that was all The reason for this memorable date The tale I'd be happy to relate To the Student Board the culpret had spoken

Once again the mixed lounge was open. Nora Fitzpatrick \* \*

CHICAGO by Carl Sandhog Dedicated to J. Divita Odds maker of the World, Draft Dodger, Eater of Blintz, Rider of Railroads and the Nation's Fly Swatter: Sullen, gassy, sniveling, City of the Round Shoulders. They tell me you are awkward, and I believe them; for I have seen your painted wohen step into open manholes and disappear. They tell me you are sprawling, and I answer: Yes, it is true; I have seen the real estate promoter build suburbs and go free to build again. They tell me you are bilious, and my reply is: On your broad boulevards and narrow alleys I have seen men belch. Come and show me another city with hanging head whining and weak and loathsome and icky. Backhanded, Fighting, Struggling, Losing, Dealing, shuffling, redealing. Proud to be odds maker of the world, draft dedger, eater of blints, rider \* \* \* of railroads and fly swatter for the

nation.
